Commander Of Forces

Arrangements May Be Made to Retain the Services of Gen. O'Grady-Haly.

Details of Flag Incident at Skagway Not Yet Received at Ottawa.

The Customs Officials Inclined to Think Affair Has Been Exaggerated.

(Special to the Times.)

Ottawa, June 29.—The Canadian government has not yet had full details of the flag incident at Skagway, but the customs department is inclined to think its importance is much over stated in the dispatches of this morning.

The office at Skagway is not a customs house, and we have no collector of customs there, but what is known as transit officer, who inspects shipments designed to pass in bond through the strip of territory now held by Americans to the Canadian Yukon beyond. By this system delay is prevented of goods being held up for customs examination midway, across the White Pass railway. Similar offices exist at Portland, Chicago, Tacoma, Seattle and elsewhere, and American transit officers affix seals to shipments from Canadian points.

Your correspondent gathers that flags are not used by these transit officers elsewhere, as the work is usually done at railway stations.

Commander of Forces.

Dr. Borden, minister of militia, hopes the Canadian government will be able to retain the services of General O'Grady Haly as long as desired.

Appointment.

David Menzies, of White Horse, has been appointed measuring surveyor of shipping at the port of White Horse.

TORTURED BY ROBBERS.

Inhuman Treatment of a Millionaire Oil Operator, His Wife and Daughter.

(Associated Press.)

Wheeling, W. V., June 29.—Six masked men entered the palatial summer residence of Jacob L. White, at Brothers Station, on the Baltimore & Ohio railway, overpowered and gagged the seven occupants of the house and ransacked for valuables. They secured $3,000 in money and twice as much in jewellery.

Mr. White and his aged wife and their daughter were tortured by having lighted matches applied to their bodies and their skin lacerated by needles in an effort to make them divulge the hiding place of other valuables, but without success.

The victims were deserted and lay helpless for hours until Miss Sidney Mac Kay, a niece, extricated the prisoners from the bonds and secured assistance. There is no clue to the identity of the robbers.

White is a millionaire oil operator. The victims are not in a serious condition.

A JUDGE'S COMMENTS.

Strong Remarks by Justice Hanford on the Admittance of Alien Chinese.

(Associated Press.)

Seattle, June 29.—Judge Hanford, of the federal court, has handed down a decision on a habeas corpus case in which he made some pointed comments on the past methods of bringing in Chinese aliens as American-born Chinese.

The court stated that it believed American witnesses had been brought to testify falsely as to alien Chinese having been born in Seattle, and stated that hereafter he would consider that all Chinese, born in Seattle prior to 1890, who had gone to China, had come back. He proposed to let no more Chinese in on this claim.

It is alleged that a regular system has existed in this city of hiring men to swear that Chinese are known to them as having been born in Seattle.

WESTMINSTER EXHIBITION.

Directors Decline to Alter the Date of the Fair.

(Special to the Times.)

New Westminster, June 29.—The directors of the Royal Agricultural Industrial Society met last night to consider the request of the directorate of Victoria exhibition to change the date of the provincial exhibition, to be held during the first week in October in this city. It was decided not to change the date as all arrangements have been made for holding the show on the dates set, and it was too late now to change. Secretary W. H. Keary was instructed to inform the secretary of the Victoria fair of the decision.

TELEGRAPHIC TICKS.

Miss Seagrief died at the general hospital, Toronto, on Thursday from the effects of drinking a bottle of laudanum the night before with suicidal intent. This was the second attempt in a week.

Fred. Sutherland, a rancher, son of Deputy Sheriff Sutherland, of Toronto, is supposed to have been drowned in Dog Pond river, west of Didsbury, N. W. T. He has been missing for two days. His horse was found.

A dispatch from Cheefoo reports the entire province of Sheng Kiang in revolution. The rebels are said to be overrunning the country, pillaging and burning. It is asserted that in the vicinity of Mukden all the villages are burned, and hundreds of inhabitants killed.

Harry Brown, 13 years old, was drowned while fishing in a dam at Smith Falls, Ont., on Thursday.

The Burning Of Farms

Blue Book Containing Correspondence Between Roberts and Boer Authorities.

Commander-in Chief Replies to Allegations by Kruger and Steyn

Compelled to Adopt Exceptional Measures in Dealing With the Burghers.

(Associated Press.)

London, June 29.—A blue book was issued this morning containing the correspondence between Lord Roberts and the Boer authorities on the subject of the destruction of property. Its contents are generally known.

The presidents of the Transvaal and Orange Free State on February 3rd, 1900, protested against "the destruction and devastation of farms by barbarians, encouraged by British officers and by white brigands, contrary to the usages of war."

Later, Generals Botha and Dewet made some complaints of "godless and barbarous atrocities of the British and their robber patriots."

Lord Roberts replied in a similar strain to all the protests, declaring that the British did not encourage barbarians, but that the burning of farms and buildings was necessitated by the treacherous shooting of the British from farmhouses and the wrecking of trains and accusing the Boers of wanton destruction and guerilla tactics, which he was compelled to repress by exceptional measures always employed by civilized nations in like circumstances.

Insult to The Flag

Details Given in Skagway Papers of Hauling Down of Canadian Emblem.

Matter Referred to Ottawa and Washington Governments For Official Opinions.

Particulars of the hauling down of the Canadian flag incident at Skagway, reported in the Times last evening, are given in northern papers received by the steamers Islander and Danube, the former of which arrived last evening, followed by the latter this morning. Excitement is intense over the event.

It seems that Mr. Bushby, the customs officer, never had a flag pole in front of his place of business until this month, and when it was erected and the Canadian flag was floated to the breeze, just as a patriotic Yankee might show his colors in Victoria, the wrath of a number of hot-headed Yankees asserted itself in no uncertain manner. An individual named George Miller, whose indignation exceeded his good sense, took it upon himself to have the flag lowered, and walking over to the office executed the deed which he doubtless was of opinion would make him immortal in history.

Mr. Bushby had never treated the matter seriously up to this time, although he had previously been urged to fly the Stars and Stripes at the head of the pole over the Canadian flag. He again had the flag raised after Miller had cut it down, but being further requested to have it removed considered discretion the better part of valor, and that before causing further agitation he would have the opinion of both the Ottawa and Washington governments. His main reason for having the flag floated was, it is understood, to point his office out to strangers, particularly strangers looking for it.

The Skagway Alaskan, in an editorial regretting the incident, says:

"From the standpoint of patriotism no doubt rash deeds are committed, but none the less deplorable, while from a business and social view the act of insulting the British ensign becomes gross ignorance and fraught with a spirit to engender bad feeling and stir up strife among a citizenship whose interests are identical, and whose loyalty cannot be questioned. * * * We must be careful to draw the line upon patriotic principles and not upon braggadocio and vandalism."

The Skagway News says: "The hoisting of a foreign flag over the customs house could have but one result and that quickly followed. The feeling engendered by the gradual encroachment upon our possessions has caused us to look anywhere but to our own government for relief, and every Skagway American—a king in his own land—stands ready to protect what little is left to us. Respect to the Stars and Stripes must be given and Old Glory must float on top when a foreign flag is hoisted on our soil."

The News, in its report of the affair, says: "The question which bids fair to assume international proportions as soon as the news of it can reach Ottawa and Washington, is being discussed to-day with the mass of sentiment in favor of the man who hauled down the flag. While it is generally regretted that any friction should occur between the citizens of one country and the officials of the other, the people are equally as willing to state that there is no occasion whatever for the trouble. On this strip of land which the United States has occupied undisputed since the days of the transfer in 1867, the Canadian officials have gradually encroached, unrestrained by the American government. By leaps and bounds the Canada customs house has advanced toward tide water.

"From Tagish to Bennett, then to Log Cabin, and lastly to the summit, and when the customs ensign of Canada was hoisted at Skagway it is small wonder that some John Brown would not wait for tardy action from Washington but cut down the flag.

"With the fiasco of the modus vivendi in the Porcupine district fresh in the minds of Skagwayans, together with the anything but cheerful news that the joint high commission would resume its sitting, it cannot be wondered at that an international complication has arisen in a city whose patriotism has been tested time and again by the lazy indifference of their own government as against the aggressive activity of the Britons. With feeling as it is, the action of Canadians was little less than an invitation for trouble, a chip on the shoulder."

The Islander and Danube brought about an equal number of passengers, or eighty odd in all. Both called at Vancouver and there landed all but the few destined for this city. These were T. Delage, Thomas Elliott, G. Carmichael and wife, Mrs. Shaw and child, and Captain Gaudin. The Danube after leaving Vancouver went to Ladysmith for coal.

A Word to The Wise

Invest Your Money in Victoria Securities You Will Never Regret It.

Mayor Hayward Throws Some Light on the City's Strong Financial Position.

To the Editor:—The 4 per cent. Victoria city debentures, interest payable half-yearly, the issue of which was recently duly authorized by the electors, offers an opportunity to local investors that ought not to be lost sight of. It would redound very much to the credit of the city, and be particularly advantageous in many other ways, if those living amongst us could be thoroughly assured that the security is undoubted—which it really is—the principal and interest being guaranteed by a lien and charge upon all the real estate and improvements of the city, in addition to which there are all the city's assets, including the waterworks, which plant is believed by many to be equal in value to the city's whole indebtedness. It may not be generally known that there is now deposited in the Dominion Savings bank in this city no less a sum than $1,158,896.71 belonging for the most part to our own citizens and only earning 3 per cent interest, payable yearly. This money is liable under the Assessment Act Amendment Act of 1900 to the personal property tax of one-half of one per cent., thus making the net returns to investors only 2½ per cent. per annum.

The Assessment Act Amendment Act, 1901, in order to encourage local investment in bonds and debentures of the province or municipalities, expressly exempts such bonds or debentures from personal property tax, the income only from them being taxable, and only when the income exceeds one thousand dollars.

Let this be illustrated by figures:

The $298,500 loan now required by the city is, we will suppose, at present invested in the Savings Bank, producing yearly, at 3 per cent. interest	$8,955 00
Less personal property tax, ½ of 1 per cent.	1,342 50
Net returns	$6,712 50
The same amount we will transfer to four per cent. municipal bonds at par (interest payable half yearly), producing yearly	$10,740 00
Add to which the re-investment of the six months' interest, say at 3 per cent.	80 55
	$10,820 55
If these bonds were held by one person, income tax would be deducted from this, but if divided among eleven or more no income tax would be payable, but take it at its worst, and deduct for income tax, say, at 1 per cent.	$ 108 20
Thus showing the net returns as	$10,712 35

The income of these investors is hereby proved to be increased by $4,000 a year by simply transferring their money from one investment to another.

I am sure you will agree with me, Mr. Editor, on the advisability of inducing those thrifty depositors in the Savings bank to add nearly 60 per cent. to the earning of their investments. Just consider for a moment what advantages will accrue to us all by this additional wealth to our city.

The only objection that I have met with is the underground fear that in the event of the investor requiring his money at any time during the term of the bonds, it would be difficult to realize. This the experience of the most demonstrates to be unfounded. Good bonds such as the city of Victoria offers invariably increase in value, and there is no difficulty in turning them when required into ready cash, and generally at a premium. They are as negotiable as a bank note, pass from hand to hand by transfer, and the coupons for interest are just detached from the bond every six months and collected at the city's bankers on demand.

CHAS. HAYWARD.

Victoria, B. C., June 29th, 1901.

Campbell's Prescription Store

We keep the largest stock of Drugs and Toilet Articles in the province.

Prescriptions promptly and carefully executed.

EASTERN WEATHER.

In Some Places Thermometer Registered a Hundred in Shade—Storms in Quebec.

Montreal, June 28.—Eastern Canada to a large extent is sweltering under a tropical heat wave. At many places yesterday the thermometer registered close on a hundred degrees in the shade. The observatory officials at Toronto state that there is no record of a June temperature so high as 97, as was registered there yesterday, in sixty years of the observatory's records.

Hail and Rain.

Quebec, June 28.—One of the worst rain and hail storms that ever visited Quebec, in the memory of the oldest residents, passed over the city yesterday afternoon and evening. A large number of horses and cattle in the fields were killed; streets and dwelling houses were flooded, while other houses were damaged by falling stones from cliffs, which were loosened by the storm. Railway property was also considerably damaged.

A line repairer, named Moisan, while on a pole was killed by lightning.

Damage to Property.

Sherbrooke, Que., June 28.—A destructive rainstorm struck this city and surrounding country, causing an immense amount of damage to property. The Royal Paper Company lost about 16,000,000 feet of logs at East Angus. Simon Willard was carried away by high water at Dudswell Centre and drowned.

HOW DUKE LOST MONEY.

Failure of His Grace of Manchester Due to Theatrical Speculation.

London, June 28.—The Duke of Manchester made to-day what he hopes will be his last appearance in the Bankruptcy court, as his creditors formally accepted the compromise of 12 shillings and sixpence in the pound, which offer was approved yesterday at a meeting of the unsecured creditors. Although the accounts showed that the unsecured debts amounted to £30,710, the trustees submitted that the sum could be scaled down to £19,794, with assets amounting to £5,000.

During the course of his final examination to-day the Duke of Manchester reiterated that his failure was due to the loss of several thousands of pounds in theatrical speculations, and says he had not gambled.

Miss Portia Knight, the American actress who has brought suit against the Duke of Manchester for breach of promise, had lawyers present at the Duke's examination to-day, but they were not permitted to question the debtor, and consequently they were unable to obtain information of much value to their client.

UNDERGROUND RAILWAY.

No Decision Regarding System to Be Adopted in London.

London, June 28.—The parliamentary committee, having the matter in charge, was again occupied to-day with the question of the electrification of the underground railways as the companies are unable to settle their difference as to whether the Yerkes or Ganz system shall be installed. The committee eventually decided that the board of trade should appoint an arbitrator to determine which system shal be adopted.

The committee subsequently approved the legislation proposed to enable Chas. T. Yerkes to electrify the roads, subject to the decision of the arbitrator and two of the engineers appointed by the respective railroads in regard to the system to be installed.

HOME GROWN BEEF

Will Be Supplied to Navy Wherever Possible.

London, June 28.—The secretary to the admiralty, H. O. Arnold Foster, intimated in the House of Commons to-day that the admiralty contemplated stipulating that the navy be supplied with home grown beef, where proper slaughter arrangements were possible.

NOT GUILTY.

Jury's Verdict in Case of Baseball Players Arrested for Playing on Sunday.

Syracuse, N. Y., June 28.—The jury in the case of the amateur baseball players arrested for playing on Sunday were out just three minutes in the police court this morning and then returned a verdict of not guilty.

WAS HE MURDERED?

Owen Sound, June 28.—The body of an unknown man was found in Sydenham river last night. A heavy cut over the right eye and the fact that the body was lying in only a foot and a half of water gives rise to suspicion of foul play.

The President

A SLAVE TO CATARRH.

Dr. Agnew's Catarrhal Powder Relieves in 10 Minutes.

D. T. Sample, President of Sample's Instalment Company, Washington, Pa., writes: "For years I was afflicted with Chronic Catarrh. Remedies and treatment by specialists only gave me temporary relief, until I was induced to use Dr. Agnew's Catarrhal Powder. It gave almost instant relief." 50 cents. Sold by Dean & Hiscocks and Hall & Co.—2.

COMMITTED FOR TRIAL.

Second Hearing of Case Arising Out of Death of a Pugilist.

London, June 28.—The second trial of "Jack" Roberts, the pugilist, and others charged with manslaughter, in causing the death of "Bill" Smith (Murray Livingstone), Philadelphia, as the result of a boxing contest on April 22nd at the National Sporting Club, this city, began to-day at the Old Bailey court.

The jury in the first trial, which was concluded on May 15th, disagreed, and the defendants were bound over to appear at the next session of the court.

The public prosecutor explained that the prosecution was undertaken with the view of stopping future competitions of this kind rather than with the view of punishing the defendants.

Among the witnesses called for the defence was the Earl of Lonsdale. He said he had been associated with boxing for 25 years. The Queensberry rules prevailing at the National Sporting Club minimized the dangers of boxing contests.

At the close of the testimony all the defendants were committed.

NO MORE RACING.

Speed of Automobile Will in Future Be Regulated.

Paris, June 28.—The automobile accidents yesterday in the Paris-Berlin race are causing an outcry and Deputy Gauthier brought the matter up in the Chamber of Deputies this afternoon. He asked that measures be taken to stop running automobiles at excessive speed, and remarked amid loud applause from the Rightists that it was a singular and saddening idea to organize a race to Berlin passing through Bazeilles and Sedan.

The premier, M. Waldeck Rousseau, replied that the race would not have been authorized if it had not been started for pleasure or sport. Regulations are about to be issued to control the speed of automobiles, and henceforth no race would be authorized at a speed exceeding that used in normal traffic. The roads would no longer be placed at the disposal of automobile drivers.

The statement was greeted with cheers.

BOER PRISONERS.

Transport Armenian Has Arrived at Hamilton, Bermuda.

Hamilton, Bermuda, June 28.—The British transport Armenian, having on board the first ship load of Boer prisoners to be quartered on Darrel's and Tucker's islands, arrived here this afternoon.

The Armenian had a good passage of 11 days from the island of St. Vincent. The prisoners seemed to be in good spirits, though ragged in appearance. There was no case of infectious disease on board, and the ship was allowed pratique. The prisoners are a mixed lot of native Dutch and Europeans. The water supply for the new arrivals is very scarce, as the weather has been dry, and the condensing apparatus for the camps has not yet been erected. It was only received this week from London. The prisoners will not be landed to-day.

IRON WORKERS' WAGES.

Pittsburg, June 28.—The conference between the committee of the Amalgamated Association and representatives of the Republican Iron & Steel Co. and the American Steel Hoop Co. was resumed here to-day, and the indications point to the signing of the iron wage scale. It was practically agreed to advance the base of scale from $4.75 when bar iron is selling at one cent a pound, to $5, an advance of about 6 per cent. on the present rate for bar iron. Under the new scale puddlers will receive $5.50 a ton after July 1st, in advance of 37 cents, and finishers will get a corresponding increase. If a settlement is effected all the union rolling mills of the country will continue in operation.

SUCH A CHANGE.

Not only in feelings but in looks. The skin is clear, the eyes are bright, the cheeks are plump. No more pain and misery, no more sick headache, no more jaundice. What worked the change? Dr. Pierce's Golden Medical Discovery, which cured the disease of the stomach that prevented proper nutrition, and also cleansed the clogged and sluggish liver.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of lungs, heart, liver, and other organs which seem remote from the stomach because many of these diseases have their cause in a diseased condition of the stomach involving the allied organs of digestion and nutrition.

"I sent you a letter about a year ago," writes Mrs. J. Ellis Hamilton, of Farmington, Marion Co., West Va. "I stated my case as plainly as I could, and received a letter from you in a few days, telling me to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription'—a bottle of each. I used three of each, and feel like a new woman. Don't suffer any pain or misery any more. Before using your medicines I suffered all the time—had jaundice, caused from food not digesting properly. I would have sick headache three and four times in a week. Could not do the work myself. I commenced using your medicines as recommended for liver complaint, and think I am cured now. I asked our doctor if he couldn't cure me, and he said he could give me medicine to help me but the trouble might return any time. I doctored three years without any relief. Haven't had sick headache since I took the first bottle of your medicine."

Dr. Pierce's Pellets cure constipation.

Trip to the Orient

Mr. George Carter Tells of His Visit to Hong-kong and Colombo.

Hot Weather at Singapore—The Ways of the Snake Charmer.

After leaving Kobe, Japan, we ran through the inland sea where there is some pretty scenery.

After five days' steaming we arrived at Hongkong and here we received our first taste of hot weather. Hongkong is simply one big hill, something similar to Seattle, only more hill and hill all round. Here we found John Chinaman at home, both in the town and on the water. Hundreds of sampans were gliding hither and thither, for the most part managed by the China women, who are acknowledged to be the captains of these river crafts. It is very interesting to watch these women sailing and stearing their sampans with the utmost ease and confidence in and out amongst the crowed shipping that is always to be found in Hongkong harbor. The botanical gardens of Hongkong are very pretty, rich in tropical vegetation of ferns, palms, etc. The stores on the main street are interesting for about one days' investigation, and then it gets tiresome. The town is policed by the Sikhs of India, tall, sombre looking fellows, dressed in their Indian turbans. They are very useful to ward off the attacks of the rickshaw men and to keep John Chinaman in his proper place.

Five days' steam from Hongkong brings the vessel to Singapore. About two days out from Hongkong, when nearing the tropics, the weather begins to get decidedly warm, and cotton suits and the shady side of the vessel are eagerly sought. The punkas and electric fans also are set in motion. While the ship is in motion there is a light breeze, but as soon as the anchor is dropped in Singapore harbor it is decidedly warm, in fact hot. Singapore is a rather pretty place. The climate is hot and moist.

While here I had an experience of a tropical shower, such a one as would really have done credit to our own sister city—Vancouver. The rain came down in straight columns of water of about an eighth of an inch in diameter. At least that was as near as I could measure. I broke my rule in the attempt at getting the exact diameter.

Singapore is a busy place, and there is seldom less than thirty to forty ocean steamers of almost every nationality anchored in the harbor, loading and unloading.

The shore and inland is one vast forest of cocoanut trees, tree ferns, etc., very pretty with their feathery boughs and large green cocoanuts hanging in clusters. A person is apt to be surprised and imagine he is in a circus at home when riding along the road to see a troupe of monkeys skip out from the jungle and perform a few artistic evolutions and then disappear again. The Chinamen are in great evidence here, and do a great deal of the coolie work, but there are a grat many of the Malays who do the work of loading and unloading the vessels. Here too you come in contact for the first time with the diving boys. They paddle out to the vessel in their small dug-out canoes and beg you to throw a coin in the water. It is wonderful how quick they are in and under the water. Throw a coin with all your strength from the deck, some twenty feet above the water, but like a flash the dusky diver is out of his canoe as soon as the coin reaches the water and in a very short time you see him come to the surface with the coin between his teeth and ready for another dive.

At Singapore we also came in contact with the bubonic plague for the first time. There were only a few cases in the city, but after we had been on shore we were compelled to get the doctor's certificate before we were allowed to go on board ship again.

About two days' steam after leaving Singapore we came in sight of Penang, hot Penang, blistering hot Penang. We dropped anchor in the harbor and then were politely informed that on account of coming from a plague infected port we would not be allowed to land. Not even the officers of the ship were allowed to go ashore, so we lay at anchor taking on cargo for two days, and such days of heat. It was rather aggravating to lie there in all the heat and look over to the shore, about half a mile distant on either side, which was covered with beautiful cocoanut palms, but all we could do was to imagine how nice and cool it would be if we only could get there.

About one hundred miles out from Ceylon we began to smell the spicy breezes that "blow soft o'er Ceylon's isle," i. e., in our minds, and soon dropped anchor in the beautiful harbor of Colombo. After the usual fight with the native boatmen, who carry baggage ashore, and a gharry ride of about two miles, I had the pleasure, for the first time on this trip, of enjoying a good rest in an hotel worthy of the name, situated on the edge of the beach surrounded with graceful palms and ferns, with a delightful soft sea breeze blowing. It was an hotel distinctly up to date, setting a good table with plenty of punkas and electric fans.

Colombo is one of the garden spots of the world. Here you find the vegetation is very prolific, with the cocoanut, tree ferns, jack fruit, bananas, mangoes mangosteins, cactus, etc.

In all parts of Colombo are to be heard the pipes of the snake charmer and Indian jugglers, who immediately on the appearance of a fresh arrival begin to go through their various tricks, some of which are really wonderful. One of the best, to my mind, is the growing of a mango in three minutes. The juggler shows the seed, which is about the size of a California fig. He scrapes up a little loose earth on the road and plants his seed, which he covers with a cloth. After some sleight-of-hand tricks he begins to life the cloth, and as he does so the tree commences to grow until it stands about twelve inches high, with stem and leaves perfect. He then opens a basket and at once a huge cobra begins to rear itself. The juggler gives a swirl of his pipe, and the snake curls itself back in the basket. Sometimes the juggler will take it out and play with it, wrap it round his neck, etc.

During the day, i. e., from ten until four o'clock, the weather is oppressively hot, and one keeps in the shade of the hotel, but after five o'clock nearly every body turns out for a ride or drive along the beautiful esplanade or through the Cinnamon garden. The pettah, or native town, is very interesting, but a bit dirty. The small shops are kept for the most part by Hindoos, Mohammedans and Parsees, who have every kind of Oriental product. The general run of native traders in Colombo are the biggest rogues on the face of the earth.

Colombo is the cross roads of the Orient, and in consequence there are numbers of travellers, all of whom are legitimate prey for these roguish Hindoo traders.

GEORGE CARTER.

IN LODGE CIRCLES.

Peerless No 33, I.O.O.F., Held Farewell Banquet Last Night—Woodmen of World Unveiling Ceremonies on July 6.

A farewell banquet to Peerless Lodge, which will soon be absorbed in Victoria Lodge, No. 1, I. O. O. F., was held by the members of that lodge last night.

Invitations were sent out to members of other societies, and consequently a large number were present. Peerless Lodge, No. 33, I. O. O. F., is the youngest of the I. O. O. F. lodges, and when amalgamated with Victoria, No. 1, the oldest and the best, financially, the strongest lodge in the province will be formed, the membership being about 200.

Immediately after a short business meeting last night the doors were thrown open and about 150 guests filed into the room and the banquet tables were speedily filled. Stwarberries and cream, ice cream and every imaginable dainty were provided and dispensed with liberal hands. T. M. Brayshaw, D. D. G. M., occupied the chair, while on his right was F. Nelson, noble grand of Peerless, and on his left A. Graham, deputy grand master.

The chairman, after making the usual introductory speech, called on Bro. A. Graham. Going back to the time when Victoria Lodge was first formed, he followed it throughout its career to the present day. The lodge was formed 37 years ago, when a few Oddfellows applied to the grand lodge at California for a charter. The request was granted and the late Bro. Guild was chosen to organize the new lodge. The grand lodge of British Columbia was organized in 1874, and in the month of March, 1880, the present hall was dedicated.

H. Siddall, secretary of Peerless Lodge, followed, and went over the history of Peerless Lodge since its organization.

An excellent programme was rendered, which consisted, in part, as follows: Songs by Mrs. Carse, Miss A. Russell, Corp. Simpson (in character), F. LeRoy, S. Reid, W. H. Huxtable, and a recitation by W. L. Pennock.

During the evening an orchestra, under the leadership of Bro. W. Jackson, dispensed music.

Woodmen of the World.

The Woodmen of the World are making preparations for the unveiling ceremonies which will take place in this city on July 7th, when monuments to the memory of departed brethren will be unveiled. This is one of the first ceremonies of the kind to be held in Victoria, or in fact in British Columbia, and on this account will be of particular interest. The monument of the late Bro. Durham, who was a member of the Woodmen of the World, will be one of those unveiled. The local society has had this matter in hand for some time, and preparations are now practically completed.

An excursion has been arranged from Vancouver to this city. The Woodmen of the World at the Terminal City will all attend, leaving on the excursion vessel on Saturday evening at 6 o'clock. The fare for the round trip has been arranged at $2.

A large attendance is expected, as camps from the Sound cities as well as the interior are to attend. The membership in Vancouver alone is 250.

The Woodmen will line up at the A. O. U. W. hall, with the Fifth Regiment band in the lead, and march to the cemetery.

Circulars will be issued to the members of Victoria Camp on Monday next bearing on this matter, also on the business of the regular meeting on Friday, July 5th.

A. O. F.

Court Northern Light, A. O. F., at their regular meeting held last Wednesday evening, received application for membership. The court has decided to pay an official visit to Court Vancouver at their next meeting on July 3rd, to which all members are asked to be present. The next meeting of the court being the quarterly meeting, important notices of motion of vital importance to the members will be voted upon. The election and installation of officers will also be held, and the usual half-yearly banquet will take place at the close of the meeting.

MY LADY'S TOILET.

Is incomplete without the daily use of Dr. White's Electric Comb. No more hair falling out, or dandruff or headache. Thousands of testimonials, but what you want is the comb. Send 60c. for it. Sold on a written guarantee. D. N. Rose, Gen. Mgr., Decatur, Ill.

The first Imperial Limited to reach Winnipeg from the coast since Monday, arrived yesterday morning. The passengers were delayed at Banff but were made comfortable. Several pieces of road west of Calgary are in bad shape owing to the extremely heavy rains.

EAT WHAT YOU LIKE.—Give the digestive organs some work to do. These functions need exercise as much as any part of the human anatomy, but if they're delicate, give them the aid that Dr. Von Stan's Pineapple Tablets afford and you can eat anything that's wholesome and palatable. 60 in a box, 35 cents. Sold by Dean & Hiscocks and Hall & Co.—8.

Willamette A Fixture

Vessel Refused to Hold Together and Efforts at Floating Her Proved Unavailing.

One Northern Cannery Has Been Quarantined Because of Smallpox Among Indians.

Information is brought by northern steamers that efforts to raise the steamer Willamette, off the shore of Village Island, have been fruitless. The work aboard goes steadily on, but the men appear to be laboring against insuperable difficulties. A break in the ship divides the vessel almost in two, and to make this secure enough to permit the vessel being raised seems to be the main obstacle in the way of the success of the enterprise. Plates have been fastened over the fracture time and again, but on each occasion an effort was made to lift the ship the plates refuse to hold the steamer together, and the whole work had to be gone over. Capt. McLeod, of the steamer Danube, which arrived this morning, saw the wreck on his return from Skagway, and says that he does not believe that the ship has been moved a foot.

CAPT. GAUDIN RETURN.

Capt. Gaudin, agent of marine and fisheries, returned from the north last evening, where he went on the D. G. S. Quadra to superintend the construction of the new lighthouse on Lawyer Island, at the mouth of the Skeena. He reports that one of the canneries on the river has been quarantined as a result of Dr. Gibbs's official visit of investigation into the smallpox outbreak. What cannery it is he does not remember, but he thinks that it is either the Claxton or Standard. Three cases of the disease had been found at the cannery. The salmon run on the river has, according to information which he received, improved. The fishing boats on the 28th were averaging a catch of 25 fish. The captain reports that the Quadra, after completing her work at Lawyer Island, left for Chatham Strait to overhaul the buoys and beacons in that water.

EXTENDING THE SERVICE.

It is possible that ere long Victoria will be a point for call for another round-the-world line of steamers. The Kosmos Steamship Company, which is now operating a line of steamers between Hamburg and San Francisco will, with the arrival of the Hermonthis, which is due on July 2nd, extend the route of the steamers to Puget Sound ports, says the San Francisco Chronicle. The company for over a year has maintained a regular line of first-class steamers between the German ports and San Francisco, calling both ways at all the prominent harbors on the coasts of Mexico, Central America and South America.

MARINE NOTES.

R. M. S. Miowera arrived from Vancouver en route to Australia at 9.30 o'clock last night, and proceeded on her voyage shortly afterwards. She had a large freight and received as passengers here Mr. and Mrs. L. N. Whitney for Honolulu, B. Farbstein, J. M. Thornton, Mrs. and Miss M. Seyde, R. B. Bell, A. J. Mallet, J. McLean, J. Fewks, J. Dennis, J. Riordan, Lionell Terry and Tom Lan, all for Sydney.

A company composed of Capt. Goss, the vessel's master, and others, are said to be negotiating for the Vancouver steamer Saga with a view to operating her twice a week between the Terminal City, Union, Comox and Texada.

The Germanic of the White Star line arrived at New York at 8 p. m. on Thursday.

HAIR IN THE COMB.

A bad sign. You are growing bald. Stop it now. Use Dr. White's Electric Comb and you will find no more combings. Your hair will stay where it belongs. Send 60c. for one. D. N. Rose, Gen. Mgr., Decatur, Ill.

DR. AGNEW'S CURE FOR THE HEART acts directly and quickly, stimulates the heart's action, stops most acute pain, dispels all signs of weakness, fluttering, sinking, smothering, or palpitation. This wonderful cure is the sturdy ship which carries the heart-sick patient into the haven of radiant and perfect health. Gives relief in most acute forms of heart disease in 30 minutes. Sold by Dean & Hiscocks and Hall & Co.—11.

A demonstration took place yesterday at Marieville in honor of Mr. Brodeur, Speaker of the House of Commons.

Now For The Holidays

The Last of the City Schools Closed Their Doors Yesterday Afternoon.

More Pupils Who Distinguished Themselves—Promotion Lists and Awards.

Yesterday afternoon marked the close of the school year of 1900-1901, and the teachers and pupils have now entered upon their holidays. In these columns last evening were published the promotion and prize list of the Central schools. Appended are the lists of North Ward, South Park, Kingston street and Hillside schools. The Roman Catholic College of St. Louis was also closed yesterday with appropriate exercises.

In Pemberton gymnasium yesterday afternoon the programme, as announced in the Times yesterday, was rendered at the High school commencement exercises.

NORTH WARD SCHOOL.

North Ward school closed yesterday morning, and the promotion and prize lists follow:

Senior Grade.

Promoted to Preparatory Entrance Class, C. A. Dowler, teacher.—Hazel Anderson, James Baker, Clara Bishop, Lena Blake, Louise Daley, Bertha Deaville, Rosalie Dennis, Bertha Few, William Fraser, Georgina Grant, Roy Hall, Alice Kayton, Florence Kettle, May Logg, Irene Madigan, Ethel Mann, Kenneth McCarter, Harry Price, Ernest Sewell, Rachael Sheppard, Eric Thompson, Jessie Walker, Beatrice Willey, Clair White. Recommended, Mildred Baker.

Rolls of Honor.—Deportment, James Baker; regularity and punctuality, Eric Thompson; proficiency, May Logg.

Intermediate to Senior.

Miss A. Spragge, teacher.—Percy Gill, Reginald Beckwith, Ethel Blake, Everett Taylor, Agnes Strickland, Thelma Thompson, Eleanor McCandless, Gladys Hewlings, Walter Gregg, Moeye Noye, Stanley Deaville, Rae McNeill, Lydia Eakin, Lenore Black, Ella Gill, Jeannie Russell, Stanley McLaren, Verna McLaren, Clara Murton, Willie Smith, Willie Bernon, Tillie Schmidt, Emma Price, William Dudgeon, Belle Smith, Croft, Cora Logg, John Newsom, Lawrence McCarter, Robert Ward, Sidney Humber, Nellie Jeeves, Cuthbert Stapledon, Christopher Moody, Archibald Babington.

Rolls of Honor.—General proficiency, Percy Garfield Gill; deportment, Panmure Archibald Babington; regularity and punctuality, Everett Taylor.

Junior to Intermediate.

W. E. Marchant, teacher.—Annie Aubel, Emily Mary Andrew, Vera Adams, Oscar Aubel, Wray Barraclough, Grace Beaty, Edna Blake, Harold Campbell, Richard Catterall, Alice Croft, Ethel Collister, Nellie Freeman, Edwin Gillingham, Harry Gillingham, Gemma Gray, Earle Heald, Irene Jennings, Nellie Jones, Hugh Atwood, George Duncan, Ernest Firth, Carl Gounason, Edward Hill, Hazel John, Ella John, Frederick Kruse, Nettie Kelly, Albert Su, Agnes McKittrick, Alma Porter, Emily Rule, Roy Roskelly, Veda Sexsmith, Bendle Super, Frederick Sorge, Marion Smith, Walter Tulk, Gustave Wille, Novello Westwood, Agnes Watson, Curtis Watson, Ephraim Jeeves, Ernest Spence, James Wood, Joseph Williams, Austin Yates, Richard Andrew, Frances Grant, Edythe McElhany, Bessie Ohren.

Rolls of Honor.—Proficiency, Edna Emmeline Blake; deportment, Agnes Olive McKittrick; regularity and punctuality, Edwin Charles Gillingham.

SOUTH PARK SCHOOL.

At the South Park school the gallery and assembly room were crowded with visitors. Addresses were given by Rev. Dr. Wilson, Hon. J. S. Helmcken and Mrs. Joule. The exercises consisted merely of the reading of the grade promotions and divisional transfers, and the presentation of the provincial rolls of honor.

Junior to Intermediate.

Miss A. E. Fraser, B.A., teacher.—To Third Reader Class—Frank Gosse, Edward Thomas Sullivan, Wilfred Woodward and George Chungranes. To Second Reader Class.—John Roy Campbell, Roy Trevana Pendray, Fred. Jos. James, Elsie Richards, Blanche McBeath Smith, Alvina Emma Offerman, Sidney Elwyn Perkins, Peter Hansen, Lila Nelson, Shirley Duncan Ellis, Wm. Roland, Heathcote, Ralph Campbell Munger, Jas. Hall Thompson, Elsie Muriel Redfern, Frank Harold Mapleton, Gertrude Esther Martin, Bernt Robt. Bossen, Hans Peter Jepsen, Thos. Hy. Ware, Archibald Holmes, Theresa Janet Mesher, Florence Annie Russell, Clarenda Steenson, Beatrice Maude Collis, Fred. Geo. Wyatt, Albert Griffith Loveridge, Grace Eden, Ethel S. Thomas, Gladys Gregory, Dorothy Maude Martyn, Elizabeth Young Givens, Ellen Hume Givens, Geo. Cameron, Wm. Jas. Berryman, Jno. Everett Parker, Gladys Evelyn Edmonds, Herbert Flett, Thos. Glen McMartin, Arthur Wilfred Flett, Annie Lena Lawry, Orville Eden Irving, Claude Austin Prescott, Hy. Hunter, Robert Barrington Elworthy.

Intermediate to Senior.

Miss M. N. McKenzie, teacher.—To Fifth Reader Class.—Reginald Nairn, Geraldine Starr. To Fourth Reader Class.—Gwendolyn Estele Smith, Claud Cameron Pottinger, Margaret Alexandra Ross, Jas. Herbert Whitwell, Clarenda Victoria Berryman, Dorothy Olivia McTavish, Helen Jeffray, Jno. Peden, Elsie Gertrude Sparrow, Violet Rudge, Amy Gertrude Marion, Leslie Harrington Ellis, Stanley Thos. Whitwell, Victoria May Lang, Alice Muriset, Arthur Wm. Clement, Agnes May Jackson, Wm. Archlay Davis, Georgina Donela Bebbington, Walter Carthew, Margaret Nichols, Katherine Olive Vincent, Mary Ethel Hodge, Augustus Stocks, Ethel Harriet Cross, Alfred Turner Flett, Jessie Dunn Mackay, Irene Shirley Leigh, Wm. Earnell Lambeth, Bertha Perry Tait, Harold Mitchell, Violet Graham, Henrietta Florence Piercy, Ariel Olive Buckman, Jessie Abercombie Fullerton, Warren Wilmot Walt, Jean Mildred Vincent, Jno. Jos. Bartlett, Lilian Eva Russell, Norma Alamedia Hall, Elizabeth Maud Mathews, Joyce Woodward, Hyacinth Smith.

Divisional Transfers.

From Second Primer to First Reader, Miss M. C. Maclean, teacher.—Margaret Edna Mackintosh, Flora Janette Allan, Flora Kathleen Shore, Harriet Louise Gregory, Gladys Emma Rogers, James McDonell, Daniel Wilby Wilkinson, Wilbert James Hodge, Eva Mary Ann Margetts, Dorothy Woodward, Ferris Vyvyan Henderson, Henrietta Irving, Annie Donaldson, Hugh James Brown, Robert Dimma Travis, Jessie Webster, Walter Scott Simpson, John Whitwell, Wm. Maddock, Violet Hanham, Alex. Ross, Albert Leslie Jamieson, Daniel Francis Green, Eleanor Harret, Robert Thos. McDowell, Edith Noble, Neil Cameron, Robt. Lincoln Matthews, Margaret Fleming Pottinger, Leonard Stewart Hanham, Ralph Wm. Carthew, Alma Robt. Bamford, Emile Shaw, Paul Murray, Ethel May Brown, Jas. Berryman, Flossie May Murray, Emily Marie Hall, Gladys Evelyn Anderson, Kathleen West, Robert Barber, Wm. Brayshaw, Catherine Maclure, Agnes Mapleton.

From First Primer to Second Primer.—Alma Gertrude Nelson, Annie Brown, Dawn Marie Hume, Maude Webster, Beatrice Bennet, Leda Humphreys, Emily Barriagton Elworthy, Francis Shore, Frances Briggs, Beatrice Kains, Marion Campbell, Annie Bartlett, Florence Byers, Gleuray Clunes, Thomas Lewis.

From Second Reader to Third Reader, Miss C. R. McGregor, teacher.—Laurence Brunell, Alan Leslie Greig, Ernest Banner, George Gregory, Clyde Horace, Arthur Rogers, Ida Belle McNiven, Frederick Clifford Dougall, Ada Alice Schwengers, Daniel Forest Bartlett, Katie Glen Mackintosh, William Horace, Holman Ellis, Kathleen Muriel Hall, Inez Starret, Aline Constance Cusack, Legrettia Jane Green, Ernest George Casey, Jessie Converse Thompson, Hazel Bahr, Mabel Florence Booz, William Henry Matthews, Edith Genevieve Cowper, Hattie Oliver Chapman, Lillian Elizabeth Caselton, Lawrena Alburta Sparks, George Edward Martin, Hilda Mabel Ireland, James Arthur Nixon, Olive Mary Humphrys, George Frederick Nelson, Elsie Agnes Joule, Ivy Gertrude Carthew, Thomas Douglas Roberts, Henry Nichols, Marion Jane Humphrys, William Robert Meyer, Lillian Madeline Piercy, Ellen Mary Josephine Clarke, Flora Noble, Earl Robert Campbell, Echo Bahr, Frederick Barrington Elworthy, Alice Robelee, Dorothy Annie Fox, Joseph Richard Stewart, William Francis Edwards, Ellen Lewtas, Francis Davis Ross.

From Fourth Reader to Fifth Reader, D. S. Tait, teacher.—John McDowell, Ernest Spragge, Wm. McDowell, Evelyn Jones, Wm. Marrion, Harold Bamford, Harper Nixon, Annie Lewis, Winnifred Greig, Herbert Holland, Florence Spencer, Clarendon Briggs, Kenneth Lapatecki, Frank Wm. Cameron, Marguerite Nettie Rickaby, Frank Lang, Jessie Smith, Edna Whittier, Katie Jackson, Thomas Allan, Walter Joseph Edmonds, Eleanor Rains, Reginald McFarlane, Kathleen Mary Roberts, Constance Fisher, Thomas Richards, Fred John Duncan, Daisy Jones, James Pettierew, Alex. Scott, Winnie Fox, Pauline Gillespie, Albert Cullin, Joseph Gawley, James Stewart, Wm. Nicholson Kenndy, Lancelot Wilson, Robert Wood, Ivan Maurice Sparrow, Herbert Cox, Henry Cowper, Maude McB. Smith, Alma Victoria Minckler.

Preparatory Class.

The preparatory class for the High school for next school year will be made up of pupils from Miss Speers's and Mr. Winsby's classes.

From Miss Speers's.—Wilhelmina Baxter, Maurice Foster Barham, Joseph Lawry, Constance Amy Hildige, Fritz Holman, Barbara Cameron Brown, Loretta Banner, Edgar Crow Baker Fawcett, George Clifford Irving, Francis James Armstrong, Alfred Cecil Roma, John Barber, Janet Thompson Peden, Elizabeth Garven Jamieson, Mildred Alexia Ensor Sweet, Winnifred Violet Redfern, William Martin Cullin, Adela Sophia Smith, Charles Ross, Alexander Holmes, Gertrude Chancey Nuttall, Charles Thomas Nelson, Jack Blair Jameson, Albert Victor Chudley, Victor John Winkel, William Holland, Lily Maude Nelson.

From Mr. Winsby's class.—Marion Constance Kains, Jean Goodman Roberts, Flora Campbell Black, Mildred May Brown, Gilbert Lancaster Sparrow, Leon Dassonville, Hannah Aaronson, Nelson Scott, Clavilla Jane Caselton, Walter Clifton Cameron, Charles Lewis Marks, Susan Ellen Joule, Hamilton Douglas, Robert Pike, George Herbert Pottinger, John Raymond Emery, Gladys Elsie Cruickshank, Tillman Alfred Briggs, Sydney Clark Mincler, Robert Sinclair Rendall Whyte, Mabel Tryphena Miller, Edwin Noble, Robert Tyndal Mackay, Frederick Austin Cullin, Alexander McNeill.

Honor List.

Eighth Division, Miss M. C. Maclean, teacher.—Proficiency, Margaret Edna Mackintosh; regularity and punctuality, Flora Kathleen Shore; deportment, Robert Dwinna Travis.

Seventh Division, Miss A. E. Fraser, B. A., teacher.—Deportment, Roy Trevena Pendray; punctuality and regularity, Fredrick Joseph James; proficiency, Frank Gosse.

Sixth Division, Miss C. McGregor, B. A., teacher.—Deportment, Marion Jane Humphrys; regularity and punctuality, Fredrick Clifford Dougall; proficiency, Alan Leslie Greig.

Fifth Division, Miss McKenzie, teacher.—Deportment, Geraldine Starr; punctuality and regularity, Violet Rudge; proficiency, Reginald Nairne.

Fourth Division, D. S. Tait, teacher.—Proficiency, John McDowell; deportment, George Roberts; punctuality and regularity, William Frank Cameron.

Third Division, W. N. Winsby, teacher.—Proficiency, Marion Constance Kaines; deportment, Flora Campbell Black; regularity and punctuality, Harry Henderson and Robt. Tyndal MacKay.

Second Division, E. M. Speers, teacher.—Proficiency, Wilhelmina Baxter; deportment, Fritz Homan; regularity and punctuality, Anna Matilda Henderson.

Recitation—"Vacation" .. Willie Campbell
National Anthem.

Honor Rolls.

First Division, S. Blackwell, teacher; presented by Mr McNeill, principal of North Ward school.—Proficiency, Helen May Gonnason; punctuality and regularity, Thomas Morrell; deportment, Gwendolyn Norah Hewlings.

Second Division, C. S. Anderson, teacher; presented by Mr. McNeill, principal of North Ward school.—Proficiency, Gerald Foote; punctuality and regularity, George Ward; deportment, Adeline Gibson.

Third Division, M. Lucas, teacher; presented by Mrs. Andrew, North Ward school.—Proficiency, Orville Duncan; punctuality and regularity, Ada Vera Tulk; deportment, Dillsie McLean.

KINGSTON STREET SCHOOL.

The closing exercises at this school were of a very interesting character. Under the command of Mr. St. Clair, the instructor, excellent drills were executed by companies of boys and girls.

GOOD BREAKFASTS.

Start the Day Right.

The breakfast is perhaps the most important meal of the day. Europeans usually eat a very light breakfast. Many Americans have stomach trouble because they eat too much or food of not the right sort for the morning meal. An ideal breakfast is a baked apple or some other fruit, a dish of Grape-Nuts Food with a little cream, and a cup of Postum Food Coffee.

Leave off all meat, hot biscuits, etc. Grape-Nuts and Postum both furnish the phosphate of potash together with other food elements that go to make up brain and nerve centers as well as muscle and tissue, and both can be digested by the stomach of an infant.

It is the part of wisdom nowadays to use food especially selected for nourishment and that can be easily digested. Ten days' trial of this breakfast and you will feel as though you had "cleaned house."

The exhilaration of bounding health is worth a hundred times the small outlay of time and care in arranging such a breakfast.

Mrs. Riley, 125 Chestnut street, Camden, N. J., says she formerly breakfasted on chops, hot biscuits and coffee. "After such a meal I would have severe pains and they would last sometimes far into the night." She finally determined on a change in her diet and had for breakfast only Grape-Nuts Food and a little cream with Postum Food Coffee. She says, "In a very few days the intestinal trouble all disappeared. I have regained my old-time weight, lost the irritability and nervousness, and life takes on a new aspect.

When I feel a little exhausted in the day I simply drop everything and stir a spoonful of Grape-Nuts in a little cream or hot milk, and in ten minutes I have regained my vigor and freshness."

Grape-Nuts Food is best when served just as it comes from the package without any cooking whatever. The food has already been cooked ten or twelve hours in the process of manufacturing it. When made up into puddings, pies and other deserts it does not hurt it to be cooked again, but when served simply as a breakfast food it should never be cooked. On the contrary Postum Coffee absolutely must be boiled 15 to 20 minutes before the food value and flavor can be brought out.

Travelling Bags

We carry a full line of English and Canadian manufacture

Gladstone Bags,
Club Bags,
Kit Bags,
Dress Suit Cases,
Canvas Telescopes,
Shawl Straps.

W. & J. WILSON,

83 GOVERNMENT ST.

The class room was tastefully decorated and the parents and friends of the little ones were entertained in a right royal manner, a pleasing programme of vocal and literary selections being rendered. Addresses were delivered by Mrs. Sweet and Mrs. Grahame. During the morning the principal, Miss Lawson, announced, amid cheers, that the splendid new organ which was in the school had been entirely paid for. The presentation of honor rolls was made by Mrs. Belyea. Cheers for the teachers, and the National Anthem, terminated the proceedings. The promotion and honor lists follow:

Junior to Intermediate.

Ethel Casey, Winnie Calder, Florence Brown, Laura Gawley, John Robertson, Carrie Thomas, Clarence Cameron, Katie Herburger, Thomas Jeffry, Olive Kirkwood, Louis Pottinger, Maysie Patterson, Gordon Ross, Gertrude Sutton, Dorothy Maas, John Williams, Margradel Belyea, Sterling Belyea, Dorothy Morse.

Honor Rolls.

First Division.—Deportment, Florence Louise Brown; punctuality and regularity, John Robertson; proficiency, Winnifred Harriet Calder.

Second Division.—Deportment, Thos. Alexander; punctuality and regularity, Cassie Phillips Scott; proficiency, Edwin Munday.

ST. ANN'S ACADEMY.

Bishop Orth presided over the closing exercises at St. Ann's academy yesterday afternoon, and made the awards to the successful pupil. Owing to mourning for the late Mother Superior there was no general decoration.

After an excellent programme and the reading of a poetic tribute to the Mother Superior, "To the Memory of a Loved One," by Miss Mary Godfrey, and an essay by the same student, "The Golden Bonds of Sympathy," honors were conferred on the three graduates, Misses Mary Godfrey, Frances Healey and Elweena Martin. Each was crowned with a laurel wreath by Bishop Orth. The valedictory was read by Miss Francis Healey.

The following young ladies received certificates for stenography and typewriting: The Misses Emily Loche, McTavish, Calhoun, Hemmenurer and Matheson.

For bookkeeping and practical office work and correspondence, the following were certificated: Misses E. Loche, P. Matheson, E. Hemmenurer.

Academic Honors.

First premium, good conduct, Governor-General's medal, awarded to Miss Frances Healey; second premium, Henrietta Valois.

First premium for Christian doctrine, gold cross, awarded to Miss Mary Godfrey; second premium, Christian doctrine, Nellie Gray; first premium, first communion class, Aileen Mulcahy.

First music, intermediate course, second year, Miss Anna McQuade; first music, intermediate course, first year, Miss Mary Godfrey; junior course, second year, Miss Helena Keating; junior course, first year, Miss Frances Healey.

First premium, politeness and French, Miss Hilda Englehardt; second premium, politeness, order and neatness, Miss Maud Brown; third premium, politeness, Miss Mildred Tribe.

First premium, drawing and painting, fourth year, Miss Mica Gaxiola; first premium, second year, Miss Elsie Lubbe; first premium, drawing, second year, Miss Gladys Wake.

First premium, Canadian history, presented by Mrs. Dr. A. T. Watt, awarded to Miss Elweena Martin; second premium, Miss Mamie Brown.

Gold pen for penmanship and first premium, German, Miss Gertrude Dunlevy.

Silver medal for elocution, drawn by Henrietta Valois, Hilda Englehardt, Viola Switzer, Alice Hickey, Kathleen Cox, Anna McQuade, Nellie Lombard, Glen Switzer, Mildred Tribe, Rose Silver, Tilly Mellon, Grace Navarre, Maria Reda, Anita Morse, Mary McLeish, Aileen Mulcahy, Josephine Martin, Anna Nolte, Freda Englehardt, Agnes Shadel, won by Tillie Mellon. Honorably mentioned are Mamie Brown, Mica Gaxiola, Hilda Gonnason, Agnes McCabe, Helena Keating, Josie Colbert.

First Senior Class.

Miss Henrietta Valois, excellence, premium for Latin, geometry, literature.

Miss Gertrude Dunlevy, composition and letter writing, literature, history.

Miss Hilda Englehardt, first premium rhetoric, Latin, botany.

Intermediate Class.

Miss Kitty Keefe, first, order and neatness, literature, spelling, grammar.

Miss Gertrude Mills, first, penmanship; second, spelling, mathematics.

Miss Laura Weaver, first history, algebra; third, instrumental music, junior course, first year.

Second Division.

Miss Mamie Brown, first, application, composition, grammar, physiology.

Miss Nellie Gray, first, penmanship, history, grammar, literature.

Miss Alice Hickey, first, order and neatness, algebra, arithmetic, bookkeeping.

Miss Anna McQuade, first, spelling, grammar; second, reading.

Miss Viola Switzer, first, literature, reading, bookkeeping; second, composition, instrumental music, junior course.

Miss Cathleen Cox, first, mathematics; second, instrumental music, junior course.

Miss Rose Goodwin, second, instrumental music, junior course; needle work.

Miss Mica Gaxiola, first, application; second, instrumental music, junior course, second year.

Junior Class.

Miss Tillie Mellon, excellence, Christian doctrine, history, composition and letter writing.

Miss Elsie Lubbe, first, mathematics, grammar, literature, crayon drawing, first year; linear drawing, second grade.

Miss Nellie Lombard, first, reading; second, Christian doctrine, mathematics, grammar.

Miss Maud Brown, first, politeness, crayon drawing, first year; needlework.

Miss Helen Keating, first, penmanship; second, painting, second year; third, crayon drawing, first year.

Miss Amelia Mahle, first, needlework; second, painting, first year; crayon drawing, first year; third, instrumental music, elementary course, first junior.

Miss Madeline Lloyd, second, composition and letter writing.

Miss Effie Croft, second, reading, grammar, mathematics.

Miss Agnes McCabe, second, spelling, needlework.

Second Division.

Miss Glen Switzer, first, Christian doctrine, reading spelling; second, history.

Miss Mildred Tribe, first, politeness, grammar, reading, history.

Miss Josie Colbert, first, mathematics; second, grammar and spelling.

Miss Rosie Silver, first, reading; second, Christian doctrine, grammar.

Miss Edith Croft, first, penmanship; second, linear drawing, second grade.

Miss Beatrice Gaudin, first, composition; second, spelling; third, instrumental music, junior course, first year.

Miss Elvera Keating, general improvement in studies and manners; second, painting, second year; third, crayon drawing, first year.

Preparatory Class—First Division.

Miss Anita Morse, first, excellence, singing, reading, politeness, grammar, geography, arithmetic, fancy work.

Rose Reda, first, spelling, writing, arithmetic; second, geography.

Second Division.

Josephine Martin, first, good conduct, spelling; second, fancy work.

Alice Pichon, first, catechism; second, spelling; third, assiduity.

GOLD MEDAL, PARIS, 1900.

DOMINION DAY.

Thirty years ago Canadians rejoiced over the completion of the most important work to which their representatives had ever set their hands. The task of joining all portions of British North America under one government had been undertaken some years before, and had been successful in some degree after a sharp struggle, but it was not until the Dominion stretched from ocean to ocean that the work could be pronounced perfect. Most of the Fathers of Confederation have gone to their reward and the generation of to-day is reaping the fruits of their labors. Sir Charles Tupper was the last of them to hold a prominent place in public affairs. His part in the welding together of the provinces has been subjected to a good deal of criticism. Nova Scotia was not by any means a willing partner. She was dragged in by the scruff of the neck and she chafed and fumed for many years, but in the end these eastern wise men bowed to the decrees of destiny and have since taken a prominent part in shaping the course of the young nation. Some hold that our national proportions are not as symmetrical as they would be if Newfoundland were included in the circle and that she should be dragged in after the manner of Nova Scotia. We do things differently nowadays. We want no more unwilling partners in our business. The Newfounders want nothing to do with us at present. Their time of repentance will come.

The progress of the new Dominion from a material point of view—that is from the standpoint of those to whom only bignecs appeals—has been somewhat disappointing. Our population has not increased by "leaps and bounds." But is there any country in the world in which the standard of living is higher or in which the average unit of humanity is better off? Good laws honestly administered; the widest freedom and liberty, political and religious, consistent with the maintenance of law and order and the well-being of the community as a whole—is there any other country on the face of the earth that can offer its children a more desirable heritage? Now that we are approaching manhood's estate we can look back with complacency upon the record of the last thirty years as something of which Canadians have no reason to be ashamed.

We have now finished our preliminary national canter and stand prepared and equipped for the great race. More than thirty years have been passed in preparation: before the eyes of all the founders and builders have closed forever they will behold the first part of the period of expansion. The people of the present generation look with admiration on big things—big ships, big railroads, big buildings, big cities, big nations. The essayist may write and the preacher preach that all these things are vanity; may demonstrate that they do not bring happiness; that life in a cottage is more desirable than in a skyscraper; that there is more peace and contentment in the country and in villages than in the mad rush of cities. Life is attracted to the great centres nevertheless and the vast majority of mankind worships the visible evidences of might and power. Aspiring Canadians may comfort themselves with the thought that the work of preparation of the last thirty years is about to bring its reward. Thousands of miles of railways and canals have been built through a most fertile land stretching from the Atlantic to the Pacific. From year to year the soil gives forth of its increase in greater abundance as the forests are cleared off and the plough turns over the virgin lands of the prairies. The treasures which the earth contains from one end of this vast region to the other are being laid bare also and now it is conceded that instead of being merely an agricultural country, this Canada, with its wealth of mine, sea, forest and field, is destined to be one of the industrial hives of the world. Within the space of a year or two in Nova Scotia, Quebec, Ontario and British Columbia, villages have developed into populous cities. It is proposed to make the voyage across the Atlantic from Sydney to Great Britain in three days. There is no doubt that in a short time that will be the great highway to Europe and that for speed and comfort the Canadian route to the Orient will be the most popular one. Commerce on the Pacific is growing at a marvellous rate. When the disturbances in China are finally settled and the beneficent forces of civilization begin to operate among the myriads of human beings there a great impetus will be given to commerce on the ocean which washes the shores of British Columbia. With the business produced by our mines and our timber and our fish added to that originating in the populous and mysterious Orient, is there any necessity for misgivings about our future? We shall grow fast enough. The one thing to see to is that in the busy times ahead we do not allow our record to become sullied. Let us profit by the mistakes of our neighbors and do our utmost to prevent the making of history of which as Canadians we shall have reason to be ashamed.

AMERICANS UNIONS AND CANADIAN INDUSTRIES.

Recent and present conflicts between capital and labor in Canada has directed attention generally to a matter which for some time past has occupied a great deal of the time of thoughtful advocates and defenders of the cause of the workingman. Are the present affiliations of Canadian labor unions with similar bodies in the United States beneficial in their tendencies or likely to strengthen the cause for the advancement of which they are supposed to exist? We take it that workmen in this country desire to remain on terms of the greatest possible cordiality with their employers and by their actions to make it clear that they are interested in the welfare of the institutions with which they are connected. Was the action of the unions in the case of the steamer Garonne, forced upon the workmen on this side of the line by the strikers on the Sound, calculated to fill the proprietors of works in Victoria or the owners of vessels with admiration for unionism? Is the cause of the workingmen of Victoria stronger to-day as a result of that regrettable occurrence? Must not the proprietors of the foundries which offered to comply with all the conditions imposed by the unions be greatly tempted to take measures which will place them out of the power of bodies which to an outsider appear to have acted somewhat inconsistently? How many laboring men in Victoria to-day believe that if the cases had been reversed and Seattle placed in the position of Victoria that the workmen on the Sound would have refused to do the work or that the Victoria men would even have had the temerity to ask them to refrain?

There is also the case of the C. P. R. strike. There are grave doubts now whether the Association of International Track Workers, or whatever the name of that important body may be, had sufficient reason for ordering the men to leave their places. No doubt the strikers were under paid—most workers are, despite the great advances that have been made in recent years—but by the only basis of comparison available, the rate of wages on other roads for work of a similar character, there was no sufficient justification for plunging into such a conflict. The power of the dollar is well known in the United States and the plane of morality and integrity there is not the most elevated. The rulers of unions and the rulers of corporations might agree to act in concert for the financial benefit of all concerned. The canners on the Sound have been accused of securing the assistance of the unions to keep up the agitation among the fishermen on the Fraser in order to restrict the pack of Canadian fish to the lowest limit possible. These sinister reports may be only the natural result of and speculations upon conflicts which so seriously menace Canadian industries; but they are worthy of the attention of our workingmen, and if we mistake not they will receive attention. Large sums are sent over the border monthly for the support of interpational officers and bodies which nominally know no boundary line. Is it not time for any inquiry as to the purposes to which these funds are applied and whether the results are commensurate with the sacrifices made?

There are international labor bodies which have commanded respect and confidence for a great number of years. The nature of the calling of the Brotherhood of Locomotive Engineers seems to have impressed itself upon the disposition of the members. The gravity of life and daily responsibility have taught them to be conservative and careful and to eschew haste. In less mature bodies such traits cannot be expected to manifest themselves. Mischief has been wrought in the past because of lack of judgment among labor leaders in the United States. Unless steps be taken to amend or at least to check dangerous tendencies Canada will surely to her sorrow become involved in these disturbances.

AMERICAN PATRIOTISM.

Ignorance, arrogance and prejudice are bred in the bone and crammed into the head of the average United Stateser. What is the use of attempting to reason with men of the stamp of those who hauled down the flag at Skagway? After all they are merely imitating the actions of the leaders of the great political parties. At the last session of Congress Speaker Henderson gave orders on the opening day, when the hall was draped with the flags of all nations, that the British emblem should be covered over. The toleration and freedom for which Russia, Turkey and Spain are noted were represented by flags in that chamber of liberty, and no representative of the land in which every man is a king and would be a despot if he could manage it took an epileptic fit at the outrage. It was only the flag of Britain that was an abomination in their eyes. Mr. Henderson of course is a broad-minded man, but he is also a politician and has to deal with men who are extremely narrow. He has been visiting the King and reports His Majesty to be extremely affable and entertaining. Wonder how he will square himself for that statement when he again places his case in the hands of his friends? Mr. Miller, the bold Skagwayan who led the assault at Skagway, is a brother of the great poet who appealed to his countrymen in martial verse to dismantle the British stronghold at Esquimalt on the ground that it had some connection with the Alaskan boundary. When patriots break loose and gaze wildly around for a chance to perform a heroic act no one knows what may happen. "Old Glory" must be maintained above every rag that floats. Possibly the result of the relocation of the boundary between the United States and British Columbia has produced the latest spasm. Our American friends have a habit of encroaching upon territory that does not belong to them, and when the heavens and the surveyors prove that they have been up to their old tricks they do not like it. Even when their own people testify against them they protest that wherever they have set their foot and planted their glorious emblem is American soil. In their own hearts they know that they have squatted upon Canadian territory wherever an opportunity presented itself, and that if the Alaskan boundary were delimited in accordance with justice and treaties they would have to retire again from an untenable position. It is the knowledge that Canada has always been right in these boundary and all other controversies that makes them inflexible in their determination to hold what they have by force.

The explanation of the city's financial position and the appeal to Victorians to do their duty which the Mayor makes in to-day's Times are worthy of the most serious consideration. It is not possible to add anything to the strength of the arguments presented in His Worship's statement. If our citizens invest their money in municipal securities as well as in the property which is the guarantee as to the value of such securities, they are not likely to view with indifference the acts of those who manage civic affairs.

* * *

The Times will not be issued on Monday, the 34th anniversary of the Confederation of Canada.

AN OMISSION.

To the Editor:—Your account of the competitive drill in last evening's issue is a very just one, but I do think the little girls who executed their manoeuvres in the "stick drill" so admirably would feel disappointed at being overlooked in your report. Certainly they were not competing for the prize, but they did so much, and so well, towards pleasing the visitors, that I (as one) think they deserve the praise of all who had the pleasure of being present.

AN OLD SUBSCRIBER.

A PARADISE OF CLUBS.

The city of Zurich must be the very Paradise of clubs. In proportion to the number of its inhabitants it possesses more clubs than any other city in the world. At the end of 1893 it already had 534 clubs; but in 1901, according to the new Zuricher Addressbuch, they have increased to 771. Nearly everyone of them holds its yearly, quarterly, monthly, or weekly "vereinsfest," so that if a citizen could only get himself elected a member of each of them he might keep two festivals every day of the year.

PUBLIC INSTITUTIONS have found Pain-Killer very useful. There is nothing equal to it in all cases of bowel troubles. Avoid substitutes, there is but one—Pain-Killer, Perry Davis'. 25c. and 50c.

"Marie, I have come to-night to ask you for your hand—I"—

"You ask a great deal, George."

"On the contrary, it is such a very little one that"—

"It is yours, George, dear."

Quartette—One Sweetly Solemn Thought	Ambrose

Misses Haughton and Millar, Messrs. Fraser and Barton.

Song—Just as I Am	Danks.

Miss Millar.

Organ—Postlude	Petrali

FIRST PRESBYTERIAN.

Rev. Dr. Campbell, pastor. Services at 11 a. m. and 7 p. m. In the morning the Sabbath school pupils, with their parents, will attend the annual Sabbath school service. In the evening the Freeness of Salvation will be set forth. Sabbath school at 2:30; Junior Endeavor at 10 a. m.; Senior Endeavor at 8 p. m.

ST. PAUL'S PRESBYTERIAN.

Rev. Mr. Hastings, of Emmanuel Baptist church, will conduct the morning service. Evening theme, "The Object of the S. P. C. A. and Our Duty to the Animal Creation." Mr. Tait will have the evening service.

CENTENNIAL METHODIST.

Rev. W. H. Barraclough, B. A., pastor. Services at 11 a. m. and 7 p. m. Morning subject, "God and the Sparrows"; evening subject, "The Narrow Disciple." An open session of the Sunday school will be held at 2:30 p. m., to be addressed by Rev. S. S. Osterhout, Ph. D., and Col. Reed. As this is Library Sunday, the friends of the school are requested to bring a suitable book as their donation to the school library.

METROPOLITAN METHODIST.

The pastor, Rev. Elliott S. Rowe, will preside morning and evening. The subject of the morning sermon will be "The Obligation of Strength to Weakness." The topic of the evening discourse will be, "The Privileges and Obligation of Canadian Citizenship." The former will be in line with the general theme on the subject of cruelty to animals, referred to in all the city churches, while the latter will be commemorative of Dominion Day.

JAMES BAY METHODIST.

Rev. Gordon Taylor, B. A., will preach in the morning, and Rev. Thomas McCrossan, B. A., B. D., at night.

CONGREGATIONAL.

The pastor, Rev. R. B. Blyth, B. A., will preach morning and evening. Subject at 11 a. m., "Justice and Mercy"; 2:30 p. m., Sabbath school; 7 p. m., subject, "Repentance"; 8:15 p. m., C. E. Society.

EMMANUEL BAPTIST.

Rev. J. G. Hastings, M. A., pastor. At 11 a. m. Rev. C. Bryant will preach. The pastor will conduct the evening service and speak on the subject, "A Despairing Cry." Sunday school at 2:30 p. m. Prayer meeting, Thursday, 8 p. m.

CALVARY BAPTIST.

Rev. J. F. Vichert, M. A., pastor. Services at 11 a. m. and 7 p. m. Morning subject, "People Whom God Hears"; evening subject, "People Whom God Does Not Hear." Sunday school and Bible class at 2:30 p. m.

REFORMED EPISCOPAL.

Rev. Dr. Wilson will preach morning and evening. Morning subject, "Man and Beast" evening subject, "Excuses."

SPIRITUALISM.

R. H. Knoeshaw will lecture in the Sir William Wallace hall at 7:30 p. m.; subject, "A Nation's Birthday." Clairvoyant readings and improvisations at the close of lecture. The Progressive Lyceum meets at 10:30 a. m.

CHRISTADELPHIANS.

Meeting in A. O. U. W. hall, up-stairs, at 7 o'clock on Sunday evening. Subject, "What is Christianity, and How Shall We Know a Christian?" All welcome.

HERALD STREET MISSION.

I. Haste will speak to-morrow night at 8:30.

OWES HIS EYESIGHT TO A MIRACLE.

Indebtedness to Dodd's Kidney Pills Acknowledged by Thomas St. Pierre.

Health Entirely Re-established by Dodd's Kidney Pills—Another Triumph for That Wonderful Remedy—His Eyesight Has Been Strengthened.

St. Epi, Que., June 28.—(Special).—One year ago a miracle was announced in Chicago. R. A. Wade, the great criminal lawyer, regained his sight after having for years been totally blind. His case was published throughout the length and breadth of America, and it attracted more attention to Dodd's Kidney Pills than any medicine ever got before. For it was Dodd's Kidney Pills that restored his sight.

A similar case has turned up in the village of St. Epi, Que. Though this sufferer was not stone blind, his eyes nevertheless were utterly useless to him by lamplight. And they have been completely restored by Dodd's Kidney Pills, which is another point of similarity.

There is no attempt made to assert Dodd's Kidney Pills are a cure for blindness. Dodd's Kidney Pills are the greatest kidney medicine ever known. That is the claim made for Dodd's Kidney Pills, and there is evidence enough to prove that claim. But in cases where Kidney Disease has left poisons in the blood, and the said poisons attacking the weakest spot, injure the eye, Dodd's Kidney Pills are just as infallible as where the poison attacks the joint of the arm or the small of the back. That the eyesight of Thomas St. Pierre was restored is but another argument that Dodd's Kidney Pills make the blood absolutely pure.

Here is Mr. St. Pierre's letter: "I am happy to-day to see my health entirely re-established by Dodd's Kidney Pills. I owe that wonderful remedy a thousand thanks. Before using Dodd's Kidney Pills I had consulted many physicians and taken medicines of various kinds, but each made me worse. I had a constant pain in the back and limbs. At night I couldn't rest and I could not see by lamplight. Having taken only two boxes of Dodd's Kidney Pills I am perfectly cured. My eyesight is clear. I advise all those whose health is not good, from whatever cause, to try Dodd's Kidney Pills. Nine times out of ten they will be exactly what is wanted. Two dollars spent for Dodd's Kidney Pills will do more than millions spent otherwise, for who holds anything in the world more dear than health, or would spare any means to save it?"

AREAS OF FUTURE CITIES.

We are on the eve of a great development of centrifugal possibilities. And since it has been shown that a city of pedestrians is inexorably limited by a radius of about four miles, and that a horse-using city may grow out to seven or eight, it follows that the available area of a city which can offer a cheap suburban journey of thirty miles an hour is a circle with a radius of thirty miles. And is it to much to expect that the available area for even the common daily toilers of the great city of the year 2000, or earlier, will have a radius very much larger even than that? Now, a circle with a radius of thirty miles gives an area of over 2,800 square miles, which is almost a quarter that of Belgium. But thirty miles is only a very moderate estimate of speed, and the reader of the former paper will agree, I think, that the available area for the social equivalent of the favored season-ticket holders of to-day will have a radius of over 100 miles, and be almost equal to the area of Ireland. The radius that will sweep the area available for such as now live in the outer suburbs will include a still vaster area. Indeed, it is not too much to say that the London citizen of the year 2000 A. D. may have a choice of nearly all England and Wales south of Nottingham and east of Exeter as his suburb, and that the vast stretch of country from Washington to Albany will be all of it "available" to the active citizen of New York and Philadelphia before that date.—H. G. Wells in The Fortnightly Review.

BUNION LAST

"Six into four you can't!"
A foot and a bunion, into a shoe big enough for the foot alone, won't go.
So you've had to get a shoe too wide for the rest of the foot, and too wide for the other foot, in order to take in the bunion.
This meant leather-slack, wrinkling, and clumsiness—when it did'nt mean punishment.
But now you may have the bunion last Slater Shoe.
If you are bunion cursed, you may at least have comfort, and wear a size smaller shoe, by selecting this Goodyear welted bunion shape of—

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, June 29.—5 a.m.—The barometer remains high off the coasts of Vancouver Island and Washington, and has become abnormally low from the Rockies eastward to the Great Lakes. These conditions will cause strong winds on the Coast from the westward, and probably more rain on the Mainland. With the exception of rain on the Lower Mainland, the weather has been fair eastward to Manitoba, and become very warm in California. The temperature in the Sacramento valley yesterday rose to 108.

Forecasts.

For 36 hours ending 5 p.m. Sunday.

Victoria and vicinity—Fresh to strong westerly winds, generally fair and cool.

Lower Mainland—Fresh to strong westerly winds on the Gulf, unsettled, with occasional rains.

Reports.

Victoria—Barometer, 30.06; temperature, 50; minimum, 49; wind, 12 miles S. W.; weather, cloudy.

New Westminster—Barometer, 30.04; temperature, 50; minimum, 48; wind, calm; rain, .26; weather, cloudy.

San Francisco—Barometer, 29.72; temperature, 56; minimum, 54; wind, 4 miles S. W.; weather, cloudy.

WARNING TO WHEELMEN.

—The Refuge Home was granted the custody of Sarah Halden, an Indian child, yesterday afternoon in the police court. The action, as mentioned yesterday, was taken under the provisions of the Children's Protection Act passed at the last sitting of the legislature. The care of the child, who is 13 years of age, has been taken out of the hands of the mother, Mary Lawson, of Humboldt street. For some time the child was an inmate of the House at Port Simpson.

—Cordial invitation to everybody to take in Vancouver Dominion Day Celebration. Fare, $2.00 return. •

—The Marine Firemen's Union will hold a special meeting to-morrow evening in the hall at the corner of Government and Pandora streets.

Band Concert to-night at The Westside.

—The will of the late Louis Vigelius, which was advertised for some time ago, has been found at the Bishop's palace. This one is supposed to be his last will.

—Every visitor to the city should drink Kola Tonic Wine, and be sure you get the genuine and original with the trade mark of bunch of celery on label. others are imitations. •

—Pan-American exposition, Buffalo, N. Y., May to November. Ask Chicago, Milwaukee & St. Paul railway about reduced rates. R. M. Boyd, commercial agent, Seattle, Wash. C. J. Eddy, general agent, Portland, Ore. •

—If you are going to the Pan-American, Buffalo, the Educational Association Meeting, Detroit, Mich., or the Society of Christian Endeavor Meeting, Cincinnati, Ohio, take the Northern Pacific Railway. Call and get particulars. Northern Pacific Ticket Office, Government street. •

—The following were elected officers of the Sir William Wallace Society at its regular meeting: Chief, W. C. Kerr; chieftain, J. Deans; second chieftain, R. H. Jameson; secretary-treasurer, C. More; auditors, Messrs. W. C. Kerr and Cruickshanks; bard, J. Deans; trustees, J. R. Mackie and R. H. Jameson; chaplains, Rev. Dr. Campbell and Rev. W. L. Clay.

—The funeral of the late John Ward, which took place yesterday afternoon to Ross Bay cemetery, was largely attended. The funeral left his late residence, 124 Quadra street, at 2.30 p.m. for Christ Church cathedral, where services were conducted by Right Rev. Bishop Perrin, assisted by Rev. Canon Beanlands. The following acted as pallbearers: P. Wollaston, N. Shakespeare, T. Earle, M. P., H. Goward, E. Lewis and R. Hall, M. P. P.

—The excursion to Ladysmith will be well patronized on Monday. It is being run under the Fraternal Order of Eagles, and excursion trains will leave the E. & N. railroad station at 9 a.m. and 1.30 p.m. Tickets will be issued at $1.50 for round fare and 75 cents for children under 12 years of age. At Ladysmith provision has been made for a programme of aquatic and field sports. The Fifth Regiment band and the City band will be in attendance.

—The Vancouver World says: "G. L. Leightner, the young man who absconded from Victoria with funds belonging to the Northern Pacific railroad, when employed as their agent at the capital, and who was sentenced to two years' imprisonment, was brought to the city on Thursday morning on the Charmer, and left for Westminster on the 10 o'clock train. 'I owe my downfall to fast women,' he said to a friend, and I hope thousands of young men will profit by my advice to them, to shun that class which predominates in every community, as they would poison.' Leightner was dressed in a brown suit, and is a bright-looking young man. His home is in the State of Illinois."

—Information in reply to the photographs sent to the police authorities of the coast cities has been received by the police department here concerning some of the crooks arrested here on Victoria Day. Davis, who is serving a sentence for having stolen a locket from the store of C. E. Redfern, and who at the time of his conviction stated quite innocently that he did not know why he did such a thing, has been identified by the San Francisco authorities as a crook with a record, who came west immediately before President McKinley's visit, and who was ordered out of the city. Smith, who was arrested as a pickpocket, is also known to the San Francisco police as a crook.

—Go to Vancouver Dominion Day. Return fare $2.00, by steamers Islander, Charmer or Yosemite. •

—H. M. S. Egeria has arrived at Vancouver to take part in the Dominion Day celebration there to be held.

—Victoria Garrison Artillery Rifle Club will shoot off one of its postponed league matches on Monday.

Band Concert to-night at The Westside.

—This morning in the police court a teamster was fined $5 for driving across the sidewalk near the corner of Government and Herald street. Two wash house cases were laid over.

—A large freight is accumulating on the C. P. R. wharves for shipment to Dawson on the Islander, which sails on Monday morning. The Danube is to follow the Islander north on Wednesday morning.

—The City band will give a concert at Beacon Hill park to-morrow afternoon from 3.30 to 5.30 o'clock, when it is expected a large gathering will be present, should the weather prove fine. The programme has already appeared.

—A meeting of the building and grounds committee of the school board was held this afternoon to consider conditions for competitive plans for the new high school building. The committee will report at the special meeting of the board to-night.

—Capt. Geo. Johnson, of Sidney, who for many years has been occupied in looking after the lepers on Darcy island by taking them provisions at intervals from Sidney, has been appointed as lighthouse keeper at Esquimalt by the Dominion government.

—This morning an inquest was held into the circumstances surrounding the death of Amos Ross, who died at 26 Harbor Cottage. The evidence given at the inquest showed that the deceased had, by taking a dose of emulsion of cod liver oil, produced vomiting. The jury brought in a verdict that he had come to his death by a rupture of a blood vessel on the brain, which might have been caused by the vomiting.

—Nine members of the Victoria Gun Club leave for Vancouver to-night, where they will compete with crack shots from New Westminster, Ladners and Sound cities for a number of substantial prizes offered by the Vancouver Gun Club. Three teams are represented in the contingent leaving here, which is as follows: E. S. McClure, W. Adams, W. Bickford, E. J. Fall, Gus. Porter, J. H. Mansell, James Fletcher, E. J. Henley and Otto Weller.

—Yesterday there was brought over to this city from Seattle a woman who acknowledges the theft of a cloak on Victoria Day from the Westside. The woman is said to have been suspected of stealing in Seattle, but asked to be taken over to Victoria, as she had stolen, on the 24th of May, a cloak from the Westside and pawned it at a Victoria pawnshop. She was brought over in charge of a private detective and delivered to the police authorities here. Investigation into the matter proved that the cloak had been stolen from the Westside and had been pawned at Aaronson's. The woman is held at the police station awaiting her trial, which will come up probably on Monday.

Band Concert to-night at The Westside.

—Ho for Monday! Arrangements for the Union Picnic of the Methodist Sunday schools of Victoria at Bazan Bay park have been completed, and the committee promise a bigger and better time than ever. Sports for young and old, with suitable prizes, are to be given. Trains leave Hillside avenue station at 8 a. m., 10.30 a. m. and 1 p. m., returning leave picnic grounds at 5 p. m. and 7.30 p. m. Luncheon will be served on the grounds by the Sidney people to all who wish, for 25c. Everybody come and enjoy a good day's outing. Good bathing, good grounds and a good band in attendance. Hot and cold water free. Return fare, adults, 50c.; children, 25c. Tickets for sale at V. & S. station. •

S. P. C. A. SUNDAY.

Sermons to Be Preached To-Morrow in Most of City Churches on Behalf of the Above Society.

A very excellent suggestion has been made by the local S. P. C. A. to the ministers of the city churches. It is that sermons be preached on behalf of the work of the society in the principal churches to-morrow. The communication to the various ministers is as follows:

Dear Sir:—The committee of this society very much desire that sermons should be preached throughout the city on a set Sunday on behalf of the claim of this society, "To speak for those who cannot speak for themselves." The last Sunday in this month is suggested as a very suitable Sunday.

The appeals made by the R. S. P. C. A., of England, to ministers on this subject have resulted in a very hearty response.

I may say the society is not asking for collections on its behalf, as it has no desire to divert any of the funds of the churches from their ordinary channels, but it does desire to have the principles of justice and mercy towards the lower animal creation brought prominently before the various congregations throughout this province.

Trusting you will be able to forward the aims of this society by according to this request.

Believe me, your obedient servant,
F. B. KITTO,
Hon. Secretary.

The above proposal has received such a cordial support that sermons will be preached on behalf of the work of the society in the principal churches to-morrow as follows:

The Right Rev. Bishop of Columbia, Duncans; The Ven. Archdeacon Scriven, Cumberland; Rev. W. Baugh Allen, Chemainus. City churches: Rev. Canon Beanlands, Christ Church cathedral, morning and evening; Rev. Percival Jeans, St. John's, morning; Rev. Ernest G. Miller, St. Barnabas, morning; Rev. J. H. Sweet, St. James; Rev. J. W. Flinton, St. Luke's; Rev. John Grundy, St. Mark's; Rev. Elliott S. Rowe, Metropolitan Methodist, morning; Rev. Dr. Wilson, Church of Our Lord, morning; Rev. Dr. Campbell, First Presbyterian, morning; Rev. Leslie Clay, St. Andrew's; Rev. Wm. Barraclough, B.A., Centennial Methodist, morning; Rev. R. B. Blyth, Congregational, morning; Mr. L. Tait, St. Paul's Presbyterian, evening.

BREAKING CAMP.

The Fifth Regiment at Gun Practice—To-morrow Morning They Desert Macaulay Point.

Yesterday afternoon Nos. 1 and 2 companies of the Fifth Regiment engaged in target practice with the 13-pound guns at Shoal bay. Through a misunderstanding as to the loading of the targets on the boat which carried them to Trial island, delay was experienced in getting the targets in position early enough. Two sets of dummy targets were put in position on the island. One set represented men standing, the other men in a kneeling position. The first series was aimed at the standing targets, with Major Monro acting as battery commander. The second series was designed for the kneeling targets, with Adjutant A. Martin as battery commander. Although handicapped in many ways, the firing on the part of the companies is believed to have been very fair. Considerable difficulty was experienced in locating the targets, and the ammunition, on account of being old, was not all that could be desired. The score has not yet been learned, but every dummy was struck. Major Wynne, of Work Point Barracks, acted as range officer.

This morning practice with the 6-inch guns and the Maxims took place at Macaulay Point. Difficulty was experienced again as to locating targets, it being at times absolutely impossible to find them. The range for the 6-inch guns was 3,800 yards, for the Maxims about 500 or 600 yards. A very fair showing is reported to have been made.

This evening a band concert is to be given in camp by the regimental band at 7.30 o'clock.

On Thursday evening the officers of the Fifth Regiment were entertained at dinner by the officers at the barracks. This evening the compliment is being returned and the regiment will dine the officers of the barracks.

General leave has been granted the men of the regiment up till midnight.

To-morrow morning, about 8 o'clock, camp will break up at Point Macaulay, and the regiment will march back to the city.

During the camp everything has passed off very satisfactorily. There has been an absence of any offences on the part of the men, and the officers are highly pleased with the improved efficiency of the regiment in consequence of the two weeks' training.

MONTH'S STATISTICS.

Returns From the Fire and Police Departments for June.

The returns of the fire department for the month of June are as follows: June 2nd, chimney fire at Imperial hotel, no loss; June 6th, alarm from box 62, fire in roof of moulding room of Albion Iron Works, no loss; June 10th, false alarm from box 14; June 17th, fire on beach near Beacon Hill; June 22nd, alarm from box 62, fire at Spratt's wharf, no loss; June 27th, still alarm, fire under sidewalk opposite the Phoenix Brewery, no loss.

The city police statistics for the month of June show the following cases coming before the police magistrate: Drunks, 36; violation of the Bicycle -bylaw, 21; vagrancy, 5; stealing, 4; common assault, 2; refusing to pay revenue tax, 2; fighting, 1; entering and stealing, 1; cruelty to animals, 1; possession of intoxicants by Indians, 1; chicken stealing, 1; refusing to go to sea, 1; violation of Sidewalk by-law, 1; violation of Wash House by-law, 1; under Children's Protection Act, 1; violation of Street by-law, 1; committed for safe keeping, 31; insane committed, 1; stolen bicycles recovered, 7; money recovered, 1. This makes a total for the month of 120.

In Annual Session

Board of Directors of Provincial Royal Jubilee Hospital Met Yesterday Afternoon.

Mayor Hayward Congratulated Board on Its Showing—Four Members Re-elected.

The eleventh annual meeting of the directors of the Provincial Royal Jubilee hospital was held in the city hall at 4 o'clock yesterday afternoon, there being present a large number of ladies, members of the Women's Auxiliary. Of the board there were in attendance the president, H. Dallas Helmcken, K. C., M. P. P., Mayor Hayward and Messrs. Joshua Davies, J. L. Crimp, R. S. Day, J. Forman, H. M. Grahame, F. B. Pemberton, Thos. Shotbolt, Alex. Wilson and Isaac Braverman. The first part of the meeting was taken up with the reading of the annual reports which were all pleasantly received and adopted. The reports were as follows:

DIRECTORS' REPORT.

The directors of the Provincial Royal Jubilee hospital have much pleasure in presenting a brief report upon the workings of the institution during the eleventh year of its existence.

Repairs and Improvements.

The principal improvement to the hospital during the past twelve months has been the erection of a residence for the medical officer. Thanks to the liberality of the donors, whose names with the amounts subscribed are appended hereto, this has been accomplished at a nominal outlay of the funds of the institution. The directors accept with much gratification and their warmest thanks this mark of public appreciation of the work done in the hospital, which they are endeavoring to maintain in the highest state of efficiency. Although not so conspicuous, several smaller improvements have been effected. New porcelain baths have been provided in the place of the worn out ones in the administration building. New floors were put down in the ward kitchens, and the latter were painted and generally renovated. The corridor floors were painted and the walls repaired. A new window was put in at the head of the basement stairs and the doors made to swing to a closed position, thereby relieving the premises of the smell of cooking from the basement. The improvement is very noticeable. The main kitchen walls received a new coat of kalsomine and the range was improved. The consumption of fuel in that department has since decreased. Repainting of entrance steps, outside gutters and down pipes has been completed, and the premises generally have been kept in a good state of repair. Surgical instruments have been provided to replace those worn out, and an ample supply for the requirements of the hospital are as usual kept on hand. The ambulance is always ready for use. The vegetable garden has been much improved and has become productive. The cost of vegetables and fruit has not increased in proportion to the extra demand for these necessaries. The grounds generally are yearly becoming more beautiful, and the frequent donations of trees, shrubs, plants and bulbs are encouraging to the directors in their endeavor to make the surroundings as cheerful as possible for the convalescent patients.

During the year steps have been taken to materially improve the accommodation in the hospital. The sanitary arrangements in the men's wards being inadequate, a contract has been let for the erection of a larger building. Its fittings will be modern in every respect, and will be contained in rooms built in the most approved manner, at a cost of about $1,500.

The directors, having resolved to use their best efforts to provide and equip a children's ward during this year, have carefully considered various plans and proposals, but have not yet arrived at a satisfactory solution of the problem. The need of increased accommodation for adult patients is apparent, and while the building of the children's ward will give more room in the public wards for them, more private rooms are required. If the diet kitchen, which has been asked for by the resident medical officer in his report to the last meeting, be provided, it will be advisable to have all the private rooms in one portion of the building.

The present heating plants are taxed to their utmost capacity during cold weather. Four separate furnaces are not economical for fuel or labor, and the need of one centrally situated steam heating plant for the entire building is now more apparent than ever. This will be an expensive undertaking for which the necessary funds are not available, yet, as the work is sure to be done when the money is on hand, it is not desirable to spend a considerable sum now in the enlargement of the present system in order to heat the proposed new ward.

Further, any extension of the wards means more nurses, and there is no room in the hospital for them.

It will be seen, therefore, that for economy and efficiency in construction and maintenance the board should be furnished with funds for a steam heating plant and for building increased accommodation for nurses, the latter to be preferably in the shape of a nurses' home outside the main building, so that the money now on hand for the children's ward, collected by the Women's Auxiliary with their well known zeal and devotion, should be expended to the best advantage in the building of the children's ward.

A suggestion for changing the present sterilizing room to a position nearer the Pemberton operating room is also under consideration, and, in the interests of the hospital and of the nurses, on whom the present system entails much unnecessary fatigue, it is hoped the means will be speedily provided for this most useful work.

The corporation of Victoria was furnished with plans and an estimate of the cost of a suitable disinfecting plant for the needs of the city. If this plant was secured and located on the boundary between the Jubilee and Isolation hospitals it would meet the requirements of both institutions.

French Hospital.

The French hospital was handed over to some benevolent ladies as a home for old and infirm women about three years ago; the ladies, upon finding demands outgrowing the space, asked permission to extend the building, with some guarantee that they would be allowed to hold the property. The directors did not see their way to bind their successors in office, but, when granting permission, assured the ladies that they would do all in their power to duly protect them in their good work. It is considered that the time has arrived when the property should be disposed of and the proceeds invested in necessary extensions to the main hospital buildings. This, however, is a matter which the new board of directors can deal with.

Sanitarium.

The Victoria Lumber & Manufacturing Co., owning a large tract of country in the vicinity of Chemainus, have kindly offered the directors of this hospital the privilege of selecting 100 acres of land anywhere on the company's property to be used as a sanitarium for convalescents. The selection has not yet been made, although the offer has been accepted.

Interchange of Nurses.

The directors of the Kamloops and Chemainus hospitals are anxious to enter into an agreement whereby their nurses can serve a part of their training term in this hospital, and that those who can, after examination, pass this hospital's standard of efficiency, shall receive our certificate. This has been under consideration, and it appears an amendment to this hospital's act of incorporation will be necessary before the matter can be properly disposed of. This board would like to see the formation of a provincial board of hospital directors, to be appointed by the provincial government and selected from the board of directors of the various hospitals, which could meet annually, or oftener if necessary, for the purpose of discussing matters appertaining to hospital management, and forwarding suggestions to the government.

Distinguished Visitors.

On the 9th of July last His Honor the Lieutenant-Governor, Sir Henri Joly de Lotbiniere, K. C. M. G., honored the hospital with a visit. His Honor gave evidence of much interest, and expressed himself highly pleased. On the 28th of the same month Their Excellencies the Governor-General of Canada, Lady Minto and suite, were received by the directors and shown over the hospital. Their Excellencies' remarks and enquiries showed that they greatly appreciated the provisions made for the care of the indigent sick, as well as for the patients occupying private rooms.

Training School.

In consequence of the steady increase in the number of patients, the strength of the nurses was taxed to its utmost capacity and several of them broke down under the strain. The need of more help became apparent, and, after careful consideration, the directors increased the number of pupil nurses to 16, and at the same time lengthened the period of each nurse's stay in the hospital, as regards all who join the staff after the 1st of January last, to 2½ years, so that there may be in due time a graduate nurse in charge of each ward. In April Miss J. M. Grady resigned her position of matron and superintendent of the nurses' training school, after two and a half years of faithful service in that capacity, for which she was presented with a testimonial. Miss E. P. Alcorn, a graduate of the Monteral General hospital, was chosen to fill the vacancy, and the training school has progressed satisfactorily. A thorough training in surgical and medical cases is given, and the directors can refer with pride to the high positions held throughout the province and elsewhere, by nurses who have graduated at the hospital. The directors have made a first contribution towards a nurses' professional library, and have furnished a sitting room for their use.

Visiting Medical and Surgical Staff.

The directors take this opportunity to thank the visiting medical and surgical staff, who, by their untiring good services have done so much to promote the welfare of the patients and popularity of the hospital.

Recognition and Thanks.

The directors cannot allow this opportunity to pass without recording their grateful appreciation and thanks to those ladies of the Women's Auxiliary who have so satisfactorily assisted in the maintenance of the institution. The total amount they have expended upon the hospital during the past year amounts to $1,500, not including $510 towards the doctor's residence, figures which appeal more eloquently than words.

The directors are much indebted to and thank the British Columbia Board of Trade for free office room for the holding of their meetings.

The directors beg to sincerely thank the very numerous donors of flowers, fruit, books, poultry, and, in fact, articles of every description, including a flag pole 165 feet in length from the Victoria Lumber & Manufacturing Co., which have been duly acknowledged in the public press and by a formal intimation of a vote of thanks, by post, in each case.

The thanks of the board are extended to the Colonist and Times newspapers for their kind notices and for their papers supplied daily.

TREASURER'S REPORT.

The following reports of the treasurer and auditors were read as follows:

To the Directors of the Provincial Royal Jubilee Hospital:

Gentlemen:—In submitting the annexed annual statement of receipts and disbursements, it is necessary to state that the sum of $872.28, shown as due to the Bank of British Columbia by the last annual statement, has been reduced to $632.65, and covers all known liabilities of the hospital to the 31st May, 1901.

The expenditure of $29,423.40 during the past year as against $26,379.03 in the previous year shows an increase, due to a larger number of patients treated, and also to the increased number of days' stay at the hospital.

The greatest economy has been exercised and everything has been done so that the utmost efficiency shall be maintained.

The bachelors' donation of one hundred dollars, with accrued interest amounting to $106.80 toward a maternity ward is deposited in the Savings Bank Department of the Bank of Commerce.

There is deposited in the Bank of Montreal in the joint names of the honorary treasurer and Mrs. Hasell for the children's ward, $1,908.55, with accrued interest to 31st December, 1900, amounting to the sum of $2,115.42.

The cash receipts include the provincial capitation grant to 30th April, 1901, also from the corporation of the city of Victoria, $2,000, being a portion of their grant for the year ending 31st December, 1901.

Yours faithfully,

THOMAS SHOTBOLT,
Honorary Treasurer.

Receipts.

To grants	$19,467 98
Pay patients' fees	18,208 21
All other sources	414 99
Canadian Bank of Commerce, overdraft	632 65
	$38,723 83

Disbursements.

By expenses	$26,423 40
Doctor's house	3,395 65
Canadian Bank of Commerce, special account for building purposes	5,032 50
Canadian Bank of Commerce, paid last year's overdraft	872 28
	$38,723 83

I have examined the accounts of the hospital for the year ending 31st May, 1901, checked all cash receipts and vouchers for disbursements, all of which were found to be duly authorized by the board of directors, and I certify the above statement to be correct.

A. G. M'GREGOR,
Auditor.

Victoria, B. C., June 24, 1901.

To the President and Board of Directors Provincial Royal Jubilee Hospital:

Gentlemen:—Herewith and, duly certified, statements prepared by your secretary showing all receipts and disbursements of the institution for the fiscal year just closed. The results from a financial standpoint are so satisfactory as to demand special reference, and are largely accounted for by the systematic, business-like methods you have adopted.

I also have pleasure in bringing to your favorable notice the correctness of the work all through the books.

The "Trust Account" is also found correct, the bank balance and cash in hand exactly comparing with amounts called for by the ledger.

Respectfully submitted,

A. G. M'GREGOR,
Auditor.

MEDICAL REPORT.

Dr. Hasell, resident medical officer, read his annual report, which follows:

Gentlemen:—I have the honor to submit my report for the year ending May 31st, 1901:

The total number of patients treated this year has increased.

	1900.	1901.
In patients	688	805
Out patients	191	154

The total days' stay for 1901 was 17,909, while for 1900 it was 15,327, showing an increase of 2,672 days.

The cost of maintenance this year has increased, the figures being, for 1900, $26,379.03; for 1901, $29,362.17.

Notwithstanding the increased cost of maintenance, the daily average cost shows a very noticeable decrease.

Daily average cost per patient, 1900, $1.72.

Daily average cost per patient, 1901, $1.63.

The daily average number of patients in hospital has risen to 49.11, while in 1896 it was 36.47, and in 1900, 47.9.

I am grateful that the increased accommodation for nurses asked for by me in last year's report has been granted by the building of a house for the medical superintendent. I understand that the Ladies' Auxiliary have undertaken to provide funds towards the proper equipment of a sterilizer room in the near future.

There remains only the diet kitchen and the children's ward from last year's special needs to be provided.

I would respectfully urge on the directors the necessity of installing a new system of heating and draining the hospital before undertaking any additions or alterations to the building. I feel confident that economy would best be practiced in this direction, and an immense saving in fuel effected.

There is urgent need for an increased number of private rooms. I have on many occasions had to refuse patients owing to want of rooms during the past year.

I would also draw the attention of the board to the need there is in the city of an infirmary, where the rapidly increasing number of infirm and chronically afflicted indigent patients, who are not fit subjects for hospital treatment could be permanently provided for.

Through the kindly interest of the grounds committee, and thanks to many generous friends, the garden and grounds continue to improve, and are a great source of pleasure and comfort to both patients and staff.

The kitchen garden and piggery are proving a saving of income to the hospital. I have again to draw attention to the flooding last winter of the grounds by the hospital gate by storm water from Richmond road and the Fernwood estate, the civic authorities having up till now done nothing to abate the nuisance.

I have great pleasure in reporting the continued interest taken in the hospital and its welfare by the members of the Women's Auxiliary Society. The hospital owes a great debt to them for their intelligent interest, sympathy and help. From them, and from their coadjutors, the Daughters of Pity, the hospital has received during the year valuable donations of two dressing wagons, an ambulance litter, and an invalid chair, in addition to their customary donations of linen, crockery and other necessaries and comforts.

Hearty thanks are due to the King's Daughters, who, through all sorts of weather, make their weekly visits to the wards with papers and flowers.

Ministers of all denominations have held their services in the hospital on Sundays, and have attended the sick individually when their services were required.

Sincere thanks are also due to the medical staff, whose kind services to the patients in the public wards have always been given cheerfully and ungrudgingly.

The employees of the hospital have worked harmoniously and well during the year.

The health of the staff, with the exception of two serious cases of illness among the nurses, has been good.

The appointment of a trained nurse to each block has been found to work extremely well, and I am grateful to the board for adopting my suggestion.

I beg to enclose detailed lists of statistics for the year, and have the honor to remain,

EDWARD HASELL,
M. R. C. S., England,
Resident Medical Officer.

May 31, 1901.

TRAINING SCHOOL.

The superintendent of nurses made the following report:

Gentlemen:—I have the honor of submitting to you the report of the training school for the year ending May 31st, 1901.

Our staff at present consists of Miss Gordon, head nurse, and seventeen nurses in training, six seniors, five assistant seniors, four juniors, and two probationers.

We have had six graduates for the year: Miss H. Mauly, Miss Macdonald, Miss A. Macrae, Miss G. M. Perry, Miss Mary Beale, Miss Etta Fraser.

Twenty applications have been received during the year from young ladies desirous of entering the training school. Nine of them have been admitted as pupil nurses.

The attending physicians and surgeons, and the resident medical officer have always been courteous and helpful. We have to thank Drs. R. L. Fraser, E. Hall, F. W. Hall, H. M. Robertson, J. C. Davie and E. Hasell, for lectures given to the nurses in training.

Kind friends have furnished us milk, flowers and magazines.

By the kindness of the Women's Auxiliary we have been supplied with dishes, linen and other necessary comforts.

The visits of the King's Daughters and the Daughters of Pity have been pleasant and inspiring. They have also contributed many offerings which tend to the welfare of the patients.

A donation of $10 has been received to be used in purchasing books for the nurses' medical library.

The comfort of the nurses when off duty has been greatly added to by the use of the sitting room, which was vacated by Dr. Hasell.

E. P. ALCORN,
Superintendent of Nurses.

June 27th, 1901.

The adoption of the annual statement was moved by Mrs. Smith.

In seconding the motion Mayor Hayward congratulated the board on the very excellent showing made during the year. He also had a good word for the ladies, who not only assisted materially in the business of the hospital, but gave invaluable moral support to the institution. So far as the city was concerned, he and his colleagues had the greatest pleasure in reappointing the city's members to the board. The work of the hospital had given every satisfaction.

The reappointment of the retiring four members, Messrs. H. D. Helmcken, A. Wilson, J. Davies and F. B. Pemberton then took place, after which the president gave a short address. It was the last time for a good number of years he might have the privilege of addressing the board in similar capacity. He had attended a meeting of the Ladies' Auxiliary on the 25th, and had noted with

THOS. DUKE, Esq., OF VANCOUVER

This Well-Known Business Man Tells About Powley's Liquified Ozone. Better Read His Letter.

JAS A. McNAIR THOS. DUKE ROBERT McMAHON

The City Grocery Co.,

The Wonderful Cheap Grocers

WHOLESALE AND RETAIL. CORNER WESTMINSTER AVENUE & PRINCESS STREET.

Vancouver, B. C., April 12 1901

I have much pleasure in testifying to the wonderful curing powers of your Ozone, and what it has done for me.

For three years I have been troubled with Catarrh of the Stomach. I have taken a number of Patent Medicines without receiving any good results. Treated for some time with Electricity, which greatly benefited me but did not effect a cure.

Visiting my old home, Toronto and vicinity, last Fall after an absence of ten years, I naturally took in the great exhibition. While passing the Ozone Exhibit I took one dose and believed it did me good.

But taking other medicines which have been recommended to me by friends, I refrained from using any more Ozone, promising my relatives and numerous friends, who were very uneasy about me owing to a cough which troubled me from the commencement of my Stomach Trouble, that if not better when I returned to Vancouver, that I would give Ozone a good trial. I commenced using it on my return and before I had finished the second bottle the cough had entirely disappeared. Have taken four bottles, all trouble entirely gone, and never was in better health.

I can safely recommend Ozone.

Yours very respectfully
Thos Duke

Powley's Liquified Ozone is a preparation containing oxygen in stable form. It is not a patent medicine. It is the basis of a new and better method of curing disease. This preparation is endorsed by the best physicians in Canada. Powley's Liquified Ozone makes the system healthy—makes your stomach take the good out of your food—forms healthy flesh and destroys the germs of disease.

The cures this preparation has made in Ontario and Montreal are marvelous. It is endorsed by the best people in the country.

You can talk with or write to Mr. Duke about his case. You will find it worth while if you are sick.

If you want additional information write us for our literature. Your correspondence is strictly confidential.

IN ANNUAL SESSION.

(Continued from page 6.)

much interest the unselfish labors of the ladies. But while much work had been accomplished there still remained a great deal to be performed. The government had always manifested a strong interest in the hospital. The work of the institution was becoming a live question, and it was of the utmost importance that this interest should be cultivated. But it was not right to make the government pay all. He was of the opinion that the time had arrived when a combined effort should be made by which a plan could be formulated whereby the work could be more effectually accomplished. He believed that in no distant time legislation would be adopted to permit of the formation of a provincial board of directors, to be composed of representatives from the local hospital board, which could meet for the mutual welfare of all. In conclusion he referred to the prospective visit of their Royal Highnesses, and stated that in all probability the party would be visiting the hospital. He concluded this from the fact that the institution was named in memory of the late Monarch and dedicated by the Duke of Connaught.

Mrs. Hasell, secretary of the Women's Auxiliary, suggested that an invitation be at once extended to their Royal Highnesses, through Lord Minto. She thought it would be most appropriate that the Duchess should be in attendance at the ceremony of laying the corner stone of the children's ward.

The president reported that he had already written to Lord Minto regarding the visit of the Royal party here.

Mr. Davies said he would like to see the Duchess of York open the children's ward.

Mr. Wilson thought, however, that a maternity ward was of greater necessity than a children's ward. He thought that accommodation for the children could be found in the upper story of one of the present buildings. At no time he contended has there been over six children, that is under twelve years of age, in the hospital. He also referred to the urgent necessity of training nurses.

The meeting then adjourned.

Provincial News

CHILLIWACK.

An interesting meeting was held in the court house on the evening of the 20th to organize a branch of B. C. Society for the Prevention of Cruelty to Animals. C. J. South, the provincial secretary, was present and explained the objects and working of the society, after which it was decided to organize. A. C. Wells was elected president; Rev. Mark Jukes, 1st vice-president; A. H. Gillanders, 2nd vice-president; P. H. Wilson, secretary-treasurer, and the following an executive committee: Rev. Jos. Hall, Rev. J. K. Wright, C. W. Munro, M. P. P., Jos. Scott, Mrs. L. L. Chadsey and Mrs. C. L. Street.

NANAIMO.

Nanaimo customs for the fiscal year ending June 30th will show the largest record ever known in this city, the collections aggregating over one hundred thousand dollars.

Dr. Johnson Gibbins, provincial cattle inspector, has returned from Cedar district, and expressed surprise at the excellent condition of stock in the district. All are absolutely free from tuberculosis or other serious ailment.

William MacDonagh, keeper of Yellow Rock light for three years, has resigned. Walter Gordon, of Denman Island, succeeds him.

Inspector Netherby has completed the High school examinations. Fifteen juniors and three intermediates wrote. There were 25 candidates for entrance from Nanaimo, eight from Wellington and eleven from the surrounding districts wrote.

VANCOUVER.

A meeting of the Pacific Coast Lumbermen took place at Hotel Vancouver on Thursday. Besides ten local lumbermen the following visitors were present: Senator A. G. Foster of the St. Paul and Tacoma Lumber Co.; M. M. Cole, of the Rice Lumber Co., Everett; E. G. Ames, of the Puget Lumber Co., Port Gamble; Chas. E. Patton, of the Atlas Shingle & Lumber Co., Seattle; W. W. Hamilton, vice-president of the Seattle Lumber Co., Clear Lake, Wash., and V. H. Beckman, editor of the Pacific Lumber Journal. In the morning the visitors were driven around the park, and visited the Hastings mill and several shingle mills. In the afternoon a meeting took place, which is designated as the regular monthly meeting of the Pacific Coast Lumber Association, with which several of the British Columbia mills are affiliated, and in the evening a banquet was given to the visiting lumbermen. It is understood that an agreement was reached at the meeting that there should be a uniform price for lumber and shingles in the eastern United States market.

The executive of the Canners' Association met the council of the board of trade yesterday afternoon and placed their case regarding the deadlock with the fishermen before them. Later they met Mr. Bremner and discussed five propositions placed before them by the government commissioner, on behalf of the fishermen. Subsequently Mr. Bremner was informed that all his suggestions were unworkable. It is understood that the principal suggestions were briefly as follows: Eleven and a half cents the season through, and the reduction of the number of boats to 2,500, giving whites the preference, or 9 cents the season through, 2,000 white fishermen guaranteed boats and limit of fish per boat purchased raised from 200 to 300; or 15 cents per fish to the 12th of July, 12½ cents to the 3rd of August, and 10 cents thereafter. Mr. Bremner, it is understood, was informed that it was impossible to make further concessions.

WEAK MEN, LISTEN

Is it any argument against my Electric Belt that medicine, which contains no vital tonic properties, has not cured you? How can it give you something that it has not? Is it any argument against my Belt that a battery which tears and strains at your delicate nerves, or some crude, blistering, out-of-date electric belt, applied without sense or consideration of your trouble, has not cured you? Certainly not. My

Dr. McLAUGHLIN'S ELECTRIC BELT

has been invented and perfected for the cure of weakness in men caused by overwork, excesses and dissipation in earlier years, such as Nervous and Vital Weakness, Pains in Back and Limbs, Rheumatism, Kidney, Liver and Stomach Troubles, Varicocele and Drains of Vital Strength and all the effects of a wasted vital force. It is made with one special object in view, to renew the vital power in weak parts, and it does this as nothing else can do it. I have spent twenty years in learning to adapt it to these weaknesses in men, and I say honestly that it will not fail when my advice is followed; I care not what has failed to cure you. I am curing supposedly incurable cases daily.

I guarantee a cure if I say I can cure. I don't ask any one to take chances on my invention. It doesn't cost you anything if I fail.

If you are tired of treatments that fail, I want you to study my plan, and when you see how sensible it is, come and try it.

SPECIAL NOTICE. If you have an old belt of any other make which has burned and blistered you, or one that did not possess electricity, bring it in and I will allow you one-half the price of mine for it.

I give a free test to all who call. If you can't call I will send you my beautifully illustrated book with full information free. Call or write now. Don't delay.

WE PAY DUTY.

BASEBALL.

STANDING OF BIG LEAGUES.

The past week has again seen considerable change in the standing of the clubs in the National League. Pittsburg holds first place by a narrow margin from Brooklyn, who has displaced New York in second place. Philadelphia has passed St. Louis, and now occupies fourth place, with St. Louis, Boston, Cincinnati and Chicago following in the order named. The race at present is the closest in the history of the National League, but 53 points separating the first six teams. Cincinnati still has a fair chance in the race, but Chicago is practically out of the running.

The Cincinnati team has been the cause of considerable surprise in the baseball world, starting off by occupying first place of the season and then dropping into seventh place in a week's time, by losing eight straight games. The pitching staff of the club is largely responsible for this state of affairs. Hahn has more than held his own, and so has Phillips, but McFadden, Newton and Rusie have proven flat failures when it came to winning games. The illness of Capt. Corcoran has no doubt also something to do with the club's troubles. The captain is down with typhoid, and it is not expected that he will play again this season.

Hanlon's Brooklyn team has slowly forged its way into second place after being at the bottom of the list since the opening of the season, and it appear as though the loss of most of last year's stars will not prevent Hanlon from keeping his team to the front. The loss of McGinnity, the iron-man, who was so largely responsible for winning the championship for his team last year, was a hard blow to the champions, but the desertion of Nops, Howell, Jennings and Jones left the team in a bad way.

Hanlon, however, has succeeded in getting together what appears to be another team of champions. Hughes, who pitched here for the Victoria League team several years ago, is again the star twirler of the Brooklyns.

The race is young yet, however, and no doubt many changes in the standing of the clubs will take place before the end of the season.

The standing in the National League follows:

Clubs.	Won.	Lost.	Per Cent.
Pittsburg	31	23	.574
Brooklyn	28	24	.538
New York	25	21	.543
Philadelphia	29	25	.537
St. Louis	29	26	.527
Boston	25	23	.521
Cincinnati	22	29	.431
Chicago	19	38	.333

In the American League.

Chicago still leads in this league, Boston has jumped from fifth to second place, while Detroit has fallen from second to fifth. Washington still holds third, with Baltimore in fourth place. Philadelphia, Milwaukee and Cleveland bringing up the rear.

Detroit has lost its grip for the present, and is slowly sliding to the rear, and there is no apparent reason for this slump as all hands are in their regular positions, and no one on the team has lost any time through illness. Duffy and his Milwaukee bunch have been a total disappointment to date, seventh or last having been the best they could do. The Cleveland club is once again in last place, and from present appearances they won't be far from that place at the end of the season.

The Philadelphia club has proven the best drawing card in the American League, Lajoie being the star attraction on the team. Besides being captain of the team his second base playing has been little short of perfection, and his batting to date the best ever seen. He is in a class by himself, both as a second baseman and a batter, his fielding percentage to date being 983 and his batting 458. He has made no less than 22 two-base hits, six three-base hits and three home runs, so far this season.

The percentage of the clubs in this league to date are as follows.

Clubs.	Won.	Lost.	Per Cent.
Chicago	34	20	.630
Boston	31	22	.585
Washington	26	19	.578
Baltimore	25	20	.556
Detroit	28	25	.519
Philadelphia	21	30	.412
Milwaukee	19	33	.365
Cleveland	18	32	.360

The Northwestern League.

Portland still leads, with Spokane and Tacoma tie for second place and Seattle last.

The Webfooters clearly outclass the other clubs, and it is very doubtful if they will have any trouble in winning the pennant. The standing of clubs follows:

Clubs.	Won.	Lost.	Per Cent.
Portland	23	10	.697
Spokane	16	18	.471
Tacoma	16	18	.471
Seattle	13	22	.371

Monday's Game.

The Wenatchee tourists will arrive here on Monday morning and meet the Victorias at Oak Bay in the afternoon. This game should draw a large crowd, Monday being a holiday and outside of the excursions there will be nothing on but the ball game.

The local boys have been in hard luck in booking home games, having been disappointed no less than three times during the past month, and after each time going to considerable expense in advertising the games.

Monday's visitors are a strong amateur team, and have been playing through Washington on their way here. They are in full trim, and have yet to loose a game this season.

On Saturday next the Tacoma Greys make their initial appearance here.

To-day's Match.

To-day the Victoria baseball team is playing a game at the Coal City with the Nanaimo team. The representatives of Victoria have already been published in these columns. The following is the Nanaimo team: J. Aiken, Greenwell, P. J. Aiken, Turner, Ashman, Culligan, Friend, Graham, Gordon, Williams, sub.

Liners.

Out of 24 regular outfielders in the National League, only four bat right handed.

Virgil Garvin has pitched seven games this season for Milwaukee and lost them all.

Nic Strang has fallen off in his batting and New York fans are commencing to knock him.

CRICKET.

MIDDIES WON.

The Collegiate school eleven were defeated yesterday afternoon by the midshipmen with a score of 171 to 124. Beuhow, for the Midshipmen, put up a brilliant game, and practically won the match by getting 88 runs, not out. Underwood contributed 29 runs, helping the Midshipmen materially. K. Gillespie, for the school, made 48 runs, not out, while Barraclough made 27 and Monteith contributed 16 runs.

TO-DAY'S MATCH.

A match is taking place commencing at 2.15 this afternoon between the Royal Artillery Cricket club and the Fifth Regiment, at Work Point. The Fifth Regiment will be represented by the following players: Capt. Alexis Martin, Lieut. H. M. Grahame, W. York, F. A. Fulcher, J. A. McTavish, A. McLean, C. McLean, C. Schwengers, L. S. Y. York (captain), C. Berkley and W. T. Williams.

SAILORS v. MIDSHIPMEN.

The sailors from the warships defeated the midshipmen on Thursday last in a well contested and exciting cricket match. The score was 75 to 68.

CANADIANS AT PHILADELPHIA.

Philadelphia, Pa., June 28.—The Canadian cricket team started its first match of the series with the Belmont Cricket club here to-day, and when stumps were drawn the visitors had scored 185 for their first inning, and Belmont 131 for seven wickets. The contest is the first of the four arranged for the international championship and will last two days.

THE RING.

ROOT AWARDED FIGHT.

San Francisco, June 28.—In the Carter-Root fight to-night, the fight was awarded to Root on a foul.

In the first round Root landed twice on the face, sending Carter's head back; Carter rushed twice, but Root avoided him. In the second round Root continued to jab his left into Carter's face. In the third round they rushed into a clinch and exchanged body blows. In the fourth round, in a clinch, Carter pounded Root's kidneys, and in the fifth round Carter was aggressive and kept Root busy side-stepping. In the sixth Carter rushed Root to the ropes and landed on Root's body; Root landed right and left on face and body, and both were bleeding at the end of this round. From the seventh to fifteenth Root appeared to have slightly the better of it.

In the fifteenth, Carter fouled Root, and the referee gave the decision to the latter.

YACHTING.

OBJECTS TO RULING.

(Associated Press.)

London, June 29.—The Field, published to-day, in an editorial on the history of the cup contest, reiterates the complaint that cup racing has reached a phase in which the time-honored interests of sport have been thrust aside and declared the moment has arrived when British yachtsmen should guard against the introduction of irrelevant issues and spurious sentiments.

The Field attacks the New York Yacht club's rating rule as tending to produce a bad and unseaworthy type of boat, and protests against the interference in the sport of ignorant and wealthy laymen.

The Field concludes its editorial saying: "In bygone years the America Cup had a beneficial influence, but now it is doing more harm than good to yachting."

THE OAR.

RIVAL CREWS AT HENLEY.

(Associated Press.)

London, June 29.—The Daily News, discussing the crews at Henley, says public interest centres in the doings of the Pennsylvania University crew, and that the race will be a fair test of the American and English styles of rowing. The News admits that the Leander crew is as good as any crew which has won the Grand Challenge Cup in the last ten years, and that the Americans from the best foreign crew ever seen at Henley.

The paper doubts whether the English crews will be able to beat the Pennsylvanians.

LAWN TENNIS.

NEXT WEEK'S TOURNEY.

The Victoria Lawn Tennis Club (handicap) tournament, which has been listed for Tuesday, July 2nd, promises to be very successful. A large number of entries have been made in both events, many of whom will no doubt give some splendid exhibitions of the game.

The courts have been closed until the commencement of the tourney in order to allow the "ground man" to put them in first class order.

Players will have to play on such courts and at such time as the committee choose to appoint and the committee reserve the right to default any player or players who are late.

Following are the results of the clearing and handicapping:

Singles (Handicap.)

F. Lewin, owes 15, vs. Capt. Bowdler, owes 3-6 of 15.

J. D. Hunter, owes 15, vs. E. W. C. Hilton, owes 5-6 of 15.

A. T. Goward, owes 30.1 bye, vs. F. T. Cornwall, owes 5-6 of 15 bye.

F. B. Ward, scratch, bye, vs. J. D. Pemberton, scratch, bye.

R. H. Pooley, owes 15 bye, vs. W. P. Gooch, owes 5-6 of 15 bye.

B. Schwengers, owes 30.1 bye, vs. H. Combe, owes 15.4 bye.

H. M. Hills, owes 40 bye, vs. R. B. Powell, owes 30.3 bye.

B. Bell, owes 5-6 of 15 bye, vs. R. Clay, owes 15 bye.

A. R. F. Martin, owes 15 bye, vs. B. G. Goward, owes 3-6 of 15 bye.

C. Vernon, rec. 15 bye, vs. S. Patton, scratch, bye.

S. Powell, scratch, bye, vs. R. Harris, rec. 15 bye.

J. B. Green, rec. 15 bye, vs. F. Pinder, rec. 15 bye.

A. J. O'Reilly, scratch, bye, vs. R. Gillispie, rec. 15-4 bye.

P. S. Lampman, rec. 3-6 of 15 bye, vs. P. Du Moulin, rec. 15.2 bye.

J. E. Cornwall, scratch, bye.

W. T. Williams, scratch, bye, vs. F. Patton, rec. 3-6 of 15 bye.

A. Gillispie, rec. 15, vs. B. G. Prior, rec. 2-6 of 15.

F. Patton, rec. 3-6 of 15, vs. W. P. Keefer, scratch.

Mixed Doubles (Handicap).

Clay, R. and Miss Leeming, owe 15, vs. Pinder, F., and Miss Pinder, rec. 15.

Martin, A. R. F., and Miss Goward, owe 15.4, vs. Lewin, F., and Miss Kitto, owe 15.

Pooley, R. H., and Miss E. Loewen, owes 3-6.15, bye, vs. Bowden, Capt., and Mrs. Burton, owe 2-6.15.

Powell, S. and Miss V. Powell, rec. 3-6-15, bye, vs. Patton, F., and partner, rec. 15, bye.

——, bye, vs. Pemberton, J. D., and Miss A. Bell, owe 3-6-15, bye.

Cornwall, F. T., and Miss Green, owe 3-6.15 bye, vs. Goward, A. T. and Mrs. Crow Baker, owe 15.3, bye.

Goward, B. G., and Mrs. Langley, owe 3-6.15, bye, vs. Harris, R., and partner, rec. 15., bye.

Powell, R. B., and Miss Peters, owe 15.3, bye, vs. Bell, B., and partner, owe 3-6.15, bye.

—— vs. J. E. Cornwall and partner, scratch.

Williams, W. T., and Miss Williams, scratch, vs. Vernon, C., and Miss M. Pinder, rec. 15.2.

The fixtures for Tuesday are as follows:

2 p. m.—C. Vernon and Miss M. Pinder, rec. 15.2, vs. W. T. Williams and Miss Williams, scratch.

R. H. Pooley and Miss E. Loewen, owes 3-6.15, vs. Capt. Bowden and Mrs. Burton, owes 2-6.15.

3 p. m.—A. T. Goward, owes 30-4, vs. F. T. Cornwall, owes 5-6.15.

S. Powell and Miss V. Powell, rec. 3-6.15, vs. F. Patton and partner, rec. 15.

4 p. m.—J. D. Hunter, owes 15, vs. E. W. C. Hilton, owes 5-6.15.

A. R. F. Martin and Miss Goward, owes 15.4, vs. F. Lewin and Miss Kitto, owes 15.

4 p. m.—P. S. Lampman, rec. 3-6.15, vs. P. Du Moulin, rec. 15.2.

5 p. m.—F. B. Ward, scratch, vs. J. D. Pemberton, scratch.

B. Schwengers, owes 30.1, vs. H. Combe, owes 15.4.

B. Bell, owes 5-6.15, vs. R. Clay, owes 15.

—Japanese and Chinese Mattings from 20c. to 55c. per yard, at Weiler Bros.

MONDAY'S CELEBRATIONS.

Where the Sunday Schools Will Spend Dominion Day—Excursions to Vancouver.

Final arrangements have been made by the Sunday schools of the city for their annual picnics on Monday, the 1st.

The principal Presbyterian churches of the city have united and will hold their picnic at Albert Head. The City of Nanaimo will make several trips during the day. The last boat will leave in the evening at 8 o'clock, and if the weather is suitable a cruise on the water before returning will be indulged in.

The Methodist churches of the city have also united, and will hold their celebrations at Bazan Park, Sidney. The programme of sports has been drawn up and provides for the enjoyment of everybody. The ladies of the Methodist church, Sidney, will provide meals at 25 cents. A band will accompany the picnic and enliven the proceedings with sweet music. A programme will be given at Sidney under the leadership of Messrs. Mathews and Oliver. The band will make a tour of the city in an open car before the picnic leaves. Trains will leave at 8 o'clock and at 10 o'clock.

The Calvary Baptist church will hold their picnic at Langford Plains. A special train service has been arranged, and a programme of sports has been prepared which will ensure the enjoyment of all.

The James Bay Presbyterian church and Boys' Brigade will also hold their annual picnic at Langford Plains.

The Emmanuel Baptist church will hold their celeration at the Oak Bay golf links. At a meeting held the other evening it was decided that a game of baseball will be played in the morning, while in the afternoon cricket and football, as well as races of different kinds, will take place. The children will leave in two parties, at 9 and 10 o'clock in the morning. A special car service has been arranged.

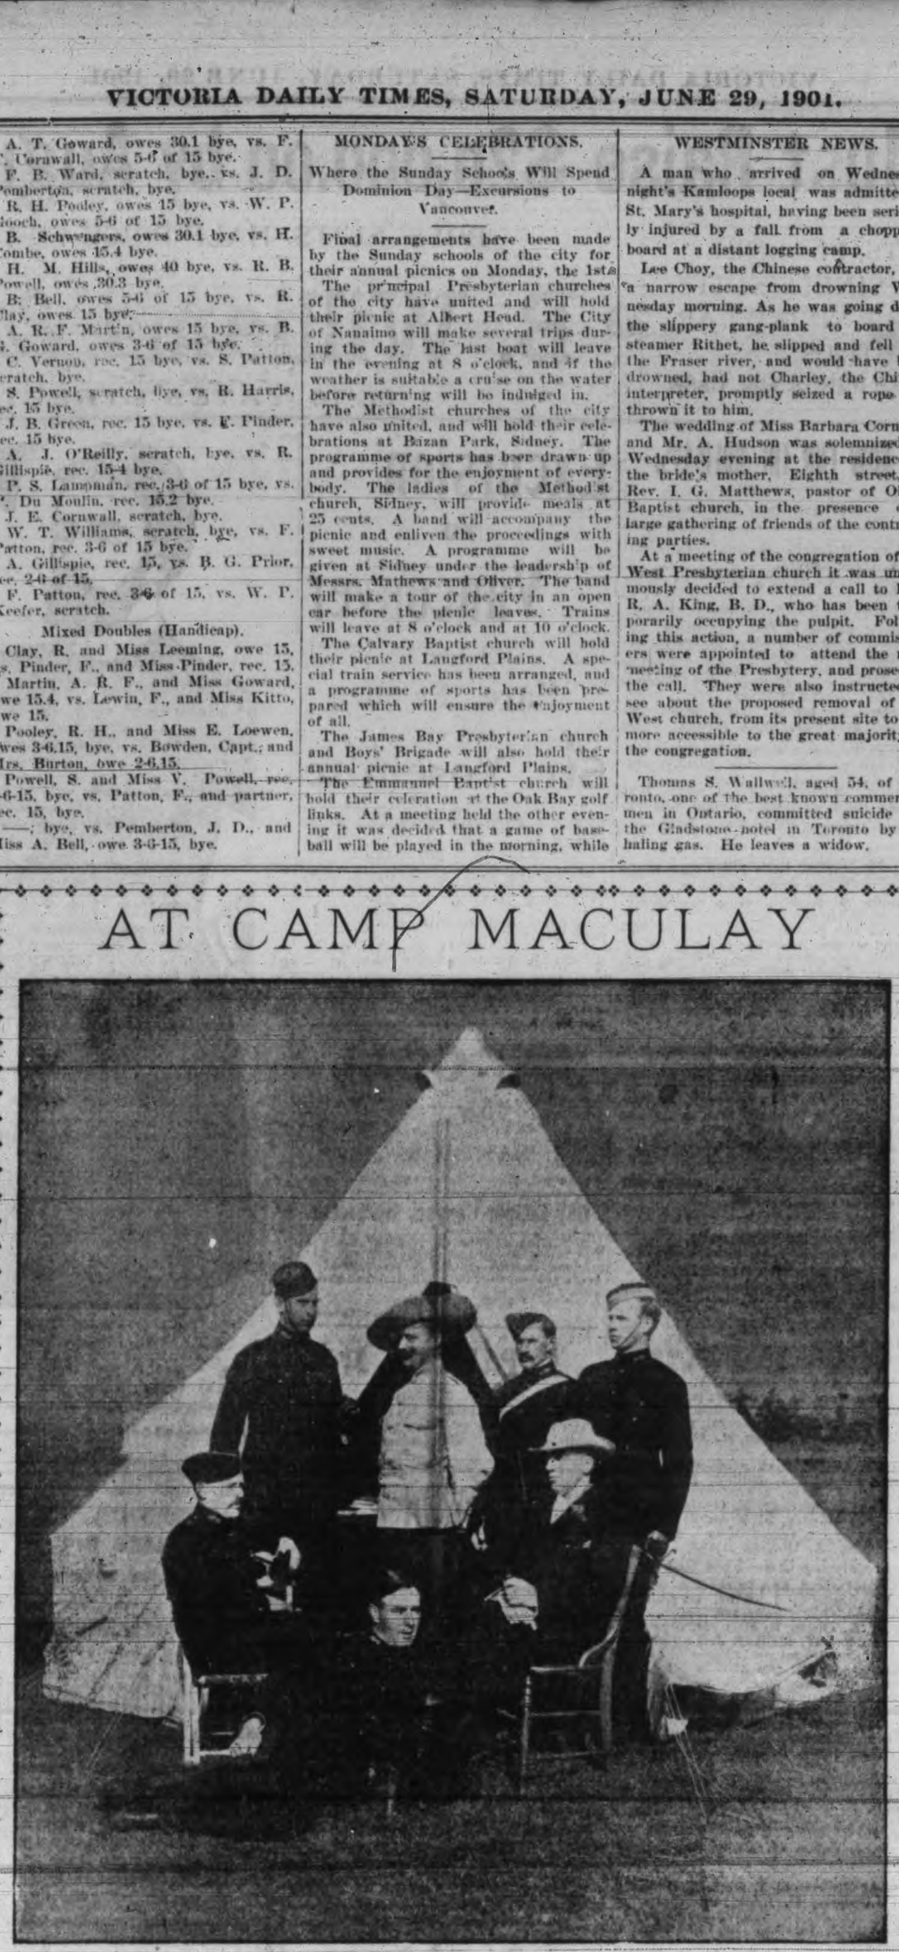

The Congregational Sunday school will leave the church at 9 a.m. for Cordova Bay, where they will spend the day, the occasion being the annual picnic. A good programme has been arranged.

The school of the Reformed Episcopal church will hold their picnic at Langford Plains. Trains will leave the depot at 9 a.m. and 3 p.m.

The festivities at Vancouver will no doubt attract a large number of Victorians to the Terminal City. The C. P. N. Company have provided a special service, with excursion rates. The Yosemite will leave this city to-morrow morning at 10 o'clock a.m., and returning, leave Vancouver at midnight on Monday. Tickets for round trip $2. Tickets will also be good on the Charmer on Saturday and Sunday nights, and on the Islander on Monday at 8 a.m., and will be available returning until July 3rd.

Out of a total area of 77,075,572 acres in the United Kingdom 47,795,270 acres were under crops and grass in 1899, this acreage being divided as follows: Permanent pastures, 28,100,672 acres; corn crops, 8,803,500 acres; green crops, 4,274,003 acres; clover, etc., under rotation, 6,105,532 acres; flax, 35,403 acres; hops, 51,843 acres; small fruit, 71,963 acres; bare fallow, 351,835 acres.

In France, if a structural defect in a bicycle causes an injury to the person using it, the manufacturer is legally responsible for damages.

AT CAMP MACULAY

GROUP OF FIFTH REGIMENT OFFICERS.

Photo by Savannah.

The members of the above group, who were photographed by B. Savannah in front of the orderly tent at Camp Macaulay, will be readily recognized by Victoria readers of the Times. Capt. McConnan, exhausted by his camp labors, is reclining on the ground, and Col. Gregory, revelling in the luxury of "cives" and a cigar, is seated vis-a-vis to Major Munro. The officer in the sporty straw headgear is not an Antipodean warrior. It is Major Hibben. The sinister expression on the usually genial face of Capt. Grahame, in the background, is generally ascribed to envy of his brother officers Hibben's head dress. It will also be noted that the remaining two officers, Lieuts. Thompson and Currie, are rapidly acquiring that determined, almost fierce, expression associated with military authority.

THE DISPUTED BOUNDARY.

H. F. Flynn Tells of the Work of Survey Parties.

H. F. Flynn, of the United States coast and geodetic survey, returned to Seattle the other day from the Mount Baker district, where he has been engaged with a government party in resurveying the disputed boundary. In an interview he said:

"The work on the disputed Mount Baker boundary has been conducted by two parties from the coast and geodetic and geological surveys, in charge of C. H. Sinclair and E. C. Bernard, respectively. The portion of the line in dispute is along Silicia creek, a branch of the Chilliwack river. An old stone post which was used by the first survey as an instrument mounting, was mistaken by some of those holding claims in that district for one of the boundary posts, and from this mistake has arisen much of the trouble.

"As soon as we arrived we found that the post tallied with a description of one of those in the report of the original survey, and soon identified it. It proved to be about five-eighths of a mile north of the real boundary line, thus leading many to believe that their property was in the United States, when in reality it was in British Columbia.

"We then ran a line as nearly as possible over that established by the original survey. Our line was almost exact, being but about one-tenth of a foot out of the way. We thus succeeded in relocating the old line established by the old survey in 1858. It is now marked by substantial iron posts. Our report will probably result in settling all disputes."

WESTMINSTER NEWS.

A man who arrived on Wednesday night's Kamloops local was admitted to St. Mary's hospital, having been seriously injured by a fall from a chopping-board at a distant logging camp.

Lee Choy, the Chinese contractor, had a narrow escape from drowning Wednesday morning. As he was going down the slippery gang-plank to board the steamer Rithet, he slipped and fell into the Fraser river, and would have been drowned, had not Charley, the Chinese interpreter, promptly seized a rope and thrown it to him.

The wedding of Miss Barbara Cormack and Mr. A. Hudson was solemnized on Wednesday evening at the residence of the bride's mother, Eighth street, by Rev. I. G. Matthews, pastor of Olivet Baptist church, in the presence of a large gathering of friends of the contracting parties.

At a meeting of the congregation of the West Presbyterian church it was unanimously decided to extend a call to Rev. R. A. King, B. D., who has been temporarily occupying the pulpit. Following this action, a number of commissioners were appointed to attend the next meeting of the Presbytery, and prosecute the call. They were also instructed to see about the proposed removal of the West church, from its present site to one more accessible to the great majority of the congregation.

Thomas S. Wallwell, aged 54, of Toronto, one of the best known commercial men in Ontario, committed suicide at the Gladstone hotel in Toronto by inhaling gas. He leaves a widow.

TACOMA GREYS VS. VICTORIA

A GIRL OR A BOY?

When pastor of a church in one of our mining towns where there were a large number of Cornish miners I was called upon to baptize an infant at the close of our Sunday school session one afternoon. That there might be no misunderstanding I carefully inquired the name of the child, and was assured that it was Anna Belle. Thus fortified, when the subject for baptism was presented I proceeded with all confidence to perform the ceremony. When I said, "Name this child," the father responded quite clearly "Anna Belle," and everything passed off smoothly. But after dismissal an American neighbor came to me and inquired why I used the pronouns she and her in baptizing that child, and informed me it was a boy. "A boy!" I gasped; "impossible! Its name was Anna Belle." "Oh, no, it wasn't; it was Hannibal." That fatal "H" had betrayed me.—The Homiletic Review.

STARVED HERSELF.

Story of a Nova Scotia Woman—For Nine Years She Has Not Eaten Solid Food—Her Warm hearted Praise of Dodd's Dyspepsia Tablets.

A remarkable story is that of Mrs. James Bradley, Smith's Cove, Nova Scotia. By her own statement she has actually starved herself for nine years. Nor was it voluntarily on her part. She was a victim of Dyspepsia.

All over civilization there are people still doing the same thing, starving themselves rather than endure the pains of Indigestion. To those people, or such of those people as may read this paper, Mrs. Bradley's letter is almost the most important message they could receive.

"I thought I would give a few words of testimony as regards Dodd's Dyspepsia Tablets, so as to possibly assist other sufferers. I have had Dyspepsia for nine years, and I have tried the best doctors in this place, and never in all that time got any relief until just a short time ago.

"I had to starve myself from eating, and had given up hope of ever having any help. No tongue can tell what I have suffered. I cannot describe it.

"I saw the advertisement for Dodd's Dyspepsia Tablets and purchased six boxes. I have taken the most of them and am thankful to say I can eat most anything and sleep comfortably, which I never expected to be able to do again in this world. All those who suffer as I did I advise to try Dodd's Dyspepsia Tablets, and never be without them, for they are the very best remedy that ever was invented though you search throughout the world."

Dodd's Dyspepsia Tablets cure Sour Stomach, Flatulence, Gas, Heartburn, Pains after Eating, Waterbrash and all the other troubles connected with Dyspepsia. They are fifty cents a box at all druggists.

MECHANICAL PROGRESS.

The sewing machine, giving the power of multiplying many times the productivity of the needle, instead of displacing the sewing girl, as once anticipated by many ignorant persons, proves to be not properly a labor-saving machine, but a machine assisting labor and multiplying not only the efficiency of the worker, but also many times increasing the quantity of work to be done and the numbers needed for the work, as occurs in all such cases. In a thousand instances the invention of a machine or the introduction of a new method in some department of mechanical engineering has brought into use an entirely new form of industry and made effective and productive the highest powers of thousands of people who otherwise would probably be compelled to drudge on in old ways and to content themselves with old rates of compensation. The reduction of costs of product and the increase in the wages of labor are the two most striking results of the revolution of the century, while the accession of value conferred upon material is sometimes quite as impressive, if not actually as important, as when the often-recounted fact is noted of the increase of the value of iron from $1 in the ore to $5 or $6 in the shape of iron bar, to $10 in any one of many finished machine-made forms, to $200 and upward in fine cutlery, to $5,000 and $10,000 in needles, to $200,000 and more in common watch springs, and to perhaps $500,000 in the shape of hair springs, the most refined condition of the metal yet attained, or even up to $2,500,000, according to Mr. Woods, in the form of pallet-arbors.—From Prof. Robert H. Thurston's Lecture in the Popular Science Monthly.

Stephen Westney, a farmer of Brougham, ate porridge at breakfast yesterday morning, which proved to contain poison. The whole family ate, and all were sick, but Westney, who died late in the day.

Fire at Lachine yesterday did $100,000 damage to the works of the Montreal Pipe Foundry Company and Montreal Car Wheel Works.

JONES, CRANE & CO.

We are instructed by a lady leaving the city to sell without reserve at our Mart, 73 Yates street,

2 p.m. Tuesday, July 2

A very desirable selection of

FURNITURE AND EFFECTS

Comprising: Cottage Piano; Double and Three-Quarter Bedsteads; Box, Wire and Wool Top Mattresses; Bureau; Wardrobe; Washstand; Commode; Mirrors; Round Mahogany Dining Table; Oak High Back Chairs; Plush Seat Rockers; Occ. Tables; HANDSOME BRASS FENDER AND IRONS; Tapestry and other Carpets and Squares; Japanese Matting; Linoleum; Curtains and Poles; Table and Hanging Lamps; Kitchen Tables and Chairs; Cupboards; ALMOST NEW SINGER SEWING MACHINE; large Aviary and Canaries, and a host of other articles too numerous to mention.

JONES, CRANE & CO.,
Tel. 294. Dominion Govt. Auctioneers.

Cooked Hams

Order early your Cooked Hams for the First.

Our Hams are first-class and thoroughly cooked.

Try our own made Devilled Ham for your sandwich.

W. H. BEATY, Manager,
Windsor Market
FORT STREET.

THE BUSY MAN OF TO-DAY

Couldn't accomplish half the work without the aid of the many labor-saving electric appliances. If you want your house, store or building wired for electric lighting, burglar alarm, call bells, telephones or any electrical device, we will do it in the most scientific manner at a reasonable price.

THE HINTON ELECTRIC CO., LD.,
62 GOVERNMENT STREET.

NEW ADVERTISEMENTS.

WANTED—Four girls, to wait on table. Apply at English Chop House, 39 Johnson street.

FOR SALE—Pony and cart. Apply Mrs. Startin, Work Point, Esquimalt.

LOST—A purse, containing brooch, silver chain and small sum in cash, opposite Fire Hall, Kingston street. Finder return Kingston street.

CALIFORNIA HOTEL FOR SALE—Bar fixtures, furniture, stock-in-trade, lease and license; proprietor going North. Apply on premises.

FOR SALE—A small house and (2) two lots, cor. North Pembroke and Sayward Ave. Apply Wm. McKay, caretaker Post Office, or P. O. Box 507.

MARRIED.

HUDSON-CORMACK—At New Westminster, on June 26th, by Rev. I. G. Matthews, A. Hudson and Miss Barbara Cormack.

DIED.

RICH—At his residence, Esquimalt road, on the 29th inst., of chronic bronchitis, Joseph Rich, of Cheshire, England, and late of Bombay, India.

Deeply mourned by a sorrowing family.

VALUE OF MEMORY.

"Never trust your memory for a moment," said a merchant to his clerk, "but make a memorandum at the moment of every occurrence it is desired to remember." The clerk did so, and lost his memory as every physical and mental faculty is lost when disused. As a boy the clerk knew the date of the battle of Marathon, of the siege of Troy, of the death of Boadicea and the battle of Cressy, but as a man he hesitates when questioned as to the date of Canadian confederation, the death of Sir John Macdonald, Sir John Thompson, or that of Britain's late sovereign. After "making a note of things" for a year or two one's memory concludes that it has become a back number and retires from business.—St. John Gazette.

Could Hardly Walk.

Painful Feet Cured by Foot Elm.

Mr. J. S. Turnbull, Galt, Ont., writes as follows:

"I have suffered for years with my feet. Sometimes they were so painful I could hardly walk. I tried several remedies, but got no relief. After using less than half a box of Foot Elm I never had any more trouble.'

There isn't a case of sore, tired, aching, tender, swollen, sweaty feet but Foot Elm can cure. It's guaranteed to cure or your money refunded.

Price 25c. a box of 18 powders at all druggists or sent by mail postage free, Stott & Jury, Bowmanville, Ont.

—Only a few Tapestry Squares left. We have sold quite a few this week. The cheapest carpet in town. Weiler Bros.

A convent in Paris, belonging to the Order of the Assumptionists, was sold by auction the other day by order of the government, the congregation having refused to pay the taxes. The property was bought in for one million and forty thousand francs.

"Yellow" Journals

Something About These Great Newspapers and Their Sensational Methods.

They Make People Think—Their Success From a Financial Standpoint.

In the March issue of Ainslee's Magazine (New York) appears an article on "Yellow Journals," by Allen Saugree, in the series of "Great Types of Modern Business." The paragraphs that follow are extracts:

It is interesting to note the casual way in which this term, yellow journalism, now world-wide in use, had its origin. Among newspaper men I find some controversy on the subject, but the consensus of opinion is that when Mr. Arthur Brisbane, now managing editor of the Evening Journal, suggested to Mr. Outcault, the artist, that he introduce in the Sunday World one of Phil May's guttersnipe sketches from a London publication, he lay the fuse that was soon to be touched. Brisbane was then on the Sunday World, and that paper immediately became popular for its comic supplement containing Outcault's "kid pictures." On the Sunday that New York entertained Li Hung Chang, Mr. Outcault brought out his tough boy, who had always worn a sort of night gown, in vivid yellow, with the words issuing from his mouth: "Gee, I got a yellow shirt, too!" Thenceforward the comic prodigy was kept in that same colored garb.

The New York Herald is the first example of yellow journalism. It has always been Mr. Bennett's policy to secure exclusive news, that is, news which shall appear only in his paper. To impress the public with his enterprise, he put headlines in bold type. With the construction of a special European cable, the establishing of a free ice fund for the poor and other institutions, he set the pace in competition and inaugurated the precedent whose catchword is "Do things." Yet a sharp distinction must be drawn between the Herald and other yellow journals. The Herald is the yellow journal of the rich and well-to-do.

Everyone on a yellow journal, from proprietor down to the fifteen-dollar-a-week reporter, is inspired by his zeal to "do things," with the result that ethical considerations frequently drop out of sight.

"It is their tendency to make news," said Mr. Charles R. Miller, editor of the New York Times, to the writer, "that we mostly condemn in yellow journals. They give undue prominence to little events, and offend by their continual loudness. The conservative paper is satisfied to print the news and nothing else. We do not think it the business of a newspaper to meddle with tax assessments or buy stock in ice trusts." The answers given by the yellow journals to this is that if they did not expose these evils no one else would or could, and by so doing they work for the public good. As for the making and distorting of news, it is to be condemned.

All hands on a yellow journal are driven at a desperate pace, and little wonder that mistakes are made. The marvel is that there are not more. I know of one reporter on the Evening Journal, Mr. George B. Fife, who recently worked 39 hours continuously without sleep. On arriving at the office at 4 a.m., he was set to rewriting from the morning paper and taking down stories as they came over the telephone. At 1 o'clock, he was ordered to Philadelphia, where he wrote two columns and wired it back for the next day's morning paper, and at the same time received a message to have two more columns ready for the evening paper. The latter he wrote in a baggage car coming home, by the dim light of a lantern and sitting on a milk can. An artist with him made pictures at the same time. The moment he reached his office a United States man-of-war ran foul in the bay, and Mr. Fife, being expert in nautical affairs, was straightway assigned to cover the story in a steam launch, remaining out in a driving rain all day, and called upon to write up a society event on his return. In that time, he wrote 17,000 words. An editor on one of the evening yellows, as another instance, on leaving for a month's vacation, was asked by the proprietor to write enough editorials to last the month. He accordingly dictated 35 in a single forenoon.

These papers are constantly calling on their men for deeds that on Park Row are now regarded as commonplace, so frequently are they accomplished, but to others they might seem fanciful and romantic. Ike White, the World's star reporter, who rose to fame by discovering the identity of Norcross, the would-be murderer of Russell Sage, was for example, summoned from a warm bed one wintry night by a telegram that bade him report at the office immediately for a trip to Alaska. He obeyed mechanically, and was shown a paragraph printed in the World some days before. It related to the discovery of a beautiful white child by an English correspondent, while travelling over the Canadian Pacific. The story said the child was held in bondage by a tribe of Indians. The World reprinted it from a London paper, and when half-a-dozen persons had inquired in letters why the World did not rescue the beautiful girl destined to become the slave of a savage chief, Mr. Pulitzer decided to make an attempt. White took the midnight train, and as the location was vague, wandered about for a week or more in the snow-covered steppes of Canada before he ran down his quarry. Greatly to his and the paper's disappointment, however, he found the child an illegitimate half-breed, who the nearest Catholic priest said had been born in the tribe, and who was perfectly contented with her lot, refusing to be rescued. Thus the enterprise that promised such unlimited advertisement was a fiasco.

Returning to the substantial ground plan of yellow journalism, I find it not to be the destruction of trusts, overthrow of Croker, dishing up of salacious news, setting up of labor against capital or America for Americans, but when the parent stalk is stripped of all its adjuncts, the big type, the sensational picture, the sick baby fund, the relief expedition and the political exposure, there remains this spinal marrow—yellow journals make people think. In particular, they make the man think who never though or read before. They jolt his brain, they plow up the fresh soil. The Neapolitan emigrant lands at the battery, in two weeks has started a barber shop or bootblacking stand; he does not speak a word of English; but in a month's time he is looking over the yellow daily. The Sun or Times does not attract him. He might be there 15 years and never look at such a paper. He must have a jolt, he must be hit in the face with a club, and the yellow journal, with its gigantic type and myriad pictures, serves that end.

It has been the aim of the yellow journal proprietor, unconsciously perhaps, to find the line of least intellectual resistance, and, in the social conditions which now prevail, he considers himself successful. It is for this reason that local news on a yellow paper receives so much prominence as against foreign.

"New York is more interested," said one editor to me, "in the mystery of a body found in a trunk than in a revolt in Bulgaria. The shop girl, or clerk, or street car conductor doesn't care a snap about the one, but does about the other, particularly if the trunk happened to be found in his or her neighborhood. The man who can't read will look at the pictures and then at the type, with the result that he feels called upon to master it, and eventually learns to read. That man is being educated by yellow journalism. Go to London and you will see one person in ten reading the daily paper as he rides to or from work. Over here the percentage is reversed. This country, particular Greater New York, contains a vast foreign population that would never attend school or get an education of any sort but for the yellow journal. It is responsible for the immense increase in the sale of books during the last five years."

To carry out this object the yellow journal employ a great staff of men and women, who design puzzles, give advice of all kinds, answer queries, suggest competitions, and in brief, cudgel their brains to make the public think. These various ruses may not appeal to a very high order of intelligence, but the thousands of letters that arrive daily prove that thought is being stirred and awakened in the remotest corners.

Yellow journalism is successful from a financial standpoint. The profits for the Herald last year amounted to nearly $750,000, or about $2,000 per day; Mr. Pulitzer's net profits for the same time were $500,000, his income having fallen off since the World dropped from 2c. to 1c. The Journal, it is generally understood, nine out even, although Mr. Hearst might have made money had he not continued to invest more in pushing his circulation. This young newspaper magnate seems determined to have his paper bought in every town in the United States, and his ambition to that end knows no limit. Thus far, his results are unprecedented. The Evening Journal has a circulation in Boston alone of 30,000. Mr. Bennett and Mr. Pulitzer are worth $25,000,000, all of which has been made in the newspaper business. The Hearst estate, on which Mr. Hearst can draw indefinitely, it seems, is worth more than $20,000,000, and $6,000,000, it is estimated, have already been invested in the New York Journal and Chicago American, without any profits as yet.

Mr. Pulitzer is 52 years old, and suffers from impaired eyesight that, at times, amounts to blindness. He is in New York about half the year, and each morning has his secretaries read him the entire paper, while he makes comments and suggestions to a stenographer, which are telephoned to the office. During the day, his trusted men visit him and receive his ideas and instructions. Although a rich man, he has always been bitter against capital. Mr. Hearst is the youngest of the trio, having lived but 35 years. He has socialistic tendencies, but has, nevertheless, been heard to say that he regarded Mr. Rockefeller as one of the best and greatest of American citizens. This, too, while ever pursuing the Standard Oil Trust. His explanation is that such enormous wealth must be kept in check, and that the magnates must understand that the people know all about them. Mr. Hearst is a hard worker, and there is scarcely a morning at 3 o'clock when he is not to be found in the composing room. He can do anything on a paper, from setting type to writing editorials.

With the law in force making it a penal offence to lie about circulation, one can now get the correct lists of the various papers. Curiously enough, this law was brought to pass by the World, which the Sun had been ridiculing for its pretences in circulation. The World had the bill passed for the benefit of advertisers who, previous to that, had no means of appreciating the circulation of the papers they patronized, and were constantly being deceived. The papers of Greater New York circulate every morning 1,000,000 copies, of which the World and Journal each supplies 300,000, and the Herald 150,000. The combined circulation of the evening papers is about the same in toto, but fluctuates like a thermometer. A famous tragedy or trial will make a change of 100,000. The Spanish war was the greatest era for the evening paper. Just previous to its beginning Mr. Hearst secured one of Mr. Pulitzer's best men at a salary of $15,000 per year and a percentage on the basis of circulation. His receipts for the first month of the war amounted to $25,000, so great was the increase of circulation.

Each of these yellow journals spends about $1,000,000 per year for paper, the quantity consumed being 51,878 tons. To furnish this a village of 2,000 souls is employed year in and year out, and every day 10 acres of spruce trees are swept off to make paper. In the World building 1,500 men are employed at salaries ranging from $4 per week to $15,000 per year. In 12 months $7,000,000 pass through the hands of the cashier.

It will thus be understood that with the yellow journal's policy to make the common people think, and engage a vast circulation for the emolument of the proprietor, mechanical methods have been developed pari passu. As rapidly as grows the circulation more rapidly develops the printing press, and the influence of the yellow journal will never be limited by mechanics, at least. Whether, like the torpedo, it will continue to inflict a succession of shocks until those who come in contact with it will be stunned to insensibility and quit reading such publications, or whether the yellow journal will advance in quality as it educates the masses, remains to be seen.

COLDS

I regard my COLD CURE as more valuable than a life insurance policy. It not only cures colds in the head, colds in the lungs, colds in the bones, but it wards off dangerous diseases such as grippe, diphtheria, pneumonia, and consumption.—MUNYON.

Munyon's Rheumatism Cure seldom fails to relieve in one to three hours, and cures in a few days.
Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach trouble.
Munyon's Cough Cure stops coughs, night sweats, allays soreness and speedily heals the lungs.
Munyon's Kidney Cure quickly cures pains in the back, loins or groins, and all forms of kidney disease.
Munyon's Vitalizer restores lost power to weak men.
All the cures are 25 cents, at any drug store.
Munyon's Guide to Health should be in the hands of every mother. It will help them to know the symptoms of every disease and tell them the proper treatment. Sent free to any address.
Munyon, New York and Philadelphia.

MUNYON'S INHALER CURES CATARRH.

MUSOLINO THE OUTLAW.

A War of 500 Men Against One Which Has Cost £20,000.

So much romance has gathered round the exploits of the Italian brigand Musolino that the plain story of fact which appears from the pen of Ugo Ojetti in this month's Lettura, is by no means unwelcomd, apart from the interest which attaches to this relentless pursuit of one man by five hundred.

From the day on which Musolino fled to the woods and mountains of his native Calabria in order to evade the severe sentence of 21 years' imprisonment, passed upon him for attempting vendetta (by no means clearly proved against him), he has led the life of a hunted wild beast.

"Musolino, now that he is alone, leaves no visible traces of his presence, he is everywhere and nowhere, now on the bare peaks of Bova above the torrent of Amendotea, now on the wooded heights of Africo, Precacore, and Roghudi, now across the plains of Bascilico, in his native district, anon on the Bagnaladdi hills, so steep that only one man at a time can scale them. He has passed the whole of this cruel winter on those heights, entering at dead of night a hut to warm himself and procure a meal of bread and cheese, sleeping for two or three hours with his back against the door and his gun between his legs, while those present scarcely dared to breathe; then on again, to the other side of the mountain to another hut for two or three hours more—a life of purgatory but of liberty."

On that tongue of land which forms the southernmost limit of the mainland there are some 140,000 inhabitants cut off from the rest of the world, speaking the dialect and knowing every inch of the difficult country, all openly or secretly protectors of Musolino.

Mayors, communal employees, rich and poor, all have been offered inducements such as orders, safe elections, and money, to aid the police. Laborers have been paid a month's wages for acting as spies for a week. Criminals in hiding have been offered a free pardon on the same conditions. The price set on the bandit's head has risen from £40 to £200, and from £200 to £800. All has been in vain; Musolino has eluded every attempt to capture him.

The Carabinieri have disguised themselves as hunters, as charcoal burners, as shepherds; they have even bought sheep in order to act the part more thoroughly. No sooner does one of them appear than the dogs begin to bark; the men, if they have a gun, fire it off under the pretext, in winter, of scaring the wolves, in summer, of killing the sparrows; and if they have no gun, they shout in order to bring their flocks together, or to bid the dogs be silent! The women folk flee, as though frightened, or else begin to sing at the top of their voices, till the neighboring hills ring again with the echoes of their shrill voices.

Meanwhile Mussolino has carried out the terrible vow of vengeance which he made on the day of his condemnation. He has waged a merciless vendetta against the Zoccolis, who were the cause of his ruin, and their friends. His victims number ten, among them being Stefano Zoccoli, his aggressor's brother.

The campaign has cost as yet over £20,000.—London Leader.

UNNECESSARY LOSS OF TIME.

Mr. W. S. Whedon, cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." For sale by Henderson Bros., Wholesale Agents.

Souvenir of the Royal Visit.

Recognizing that the approaching stay of Their Royal Highnesses

The Duke and Duchess of York

Will mark an epoch in the history of the City of Victoria and the Province of British Columbia, the publishers of The

Victoria Daily Times

SPECIAL SOUVENIR EDITION

Are prepared to issue a

Which will be published concurrently with the holding of the B. C. Agricultural Exhibition.

This number, which is issued under the patronage of His Worship the Mayor and Aldermen, will consist of fifty or sixty pages, printed on the finest paper, and embellished with over one hundred fine half-tone engravings, illustrating the resources of British Columbia and the beauties and wealth of Victoria and Vancouver Island.

Over 30,000 copies of this superb magazine edition, which will be enclosed in a handsome cover, will be circulated at the time of the Exhibition, thus affording an

Excellent Opportunity For Advertisers

to bring before the numerous visitors to Victoria during this civic carnival their ability to cater to the wants of the public

REASONS OF EDISON'S SUCCESS.

How a single brain could achieve these extraordinary works is a mystery. It is deepened by the fact that the inventor enjoyed very few educational advantages. He was a poor boy, and at the age of twelve became a newsboy on the Grand Trunk railway running into Detroit. Yet even in these days the terrific intellectual activity of his character was made manifest. At one time he had a small laboratory in the baggage car, where he tried chemical experiments. When he was a telegraphic operator he devoted all of his leisure time and many hours which should have been given to sleep to the developing of ideas which were to become great inventions. After he had grown famous and opulent, he did not yield to the temptation to take life easy, but on the contrary, threw himself with greater earnestness into the hard labor of his calling. He so begrudged the time consumed in eating, dressing and undressing, sleeping and going from his workshop to his home at Menlo Park, that he placed a bed and dining table in his workshop, where he could eat and sleep without disturbance, while engaged upon important experiments.—Frank Leslie's Popular Monthly.

RESERVE.

Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following areas are hereby reserved from pre-emption, sale, or other disposition, excepting under the provisions of the mining laws of the Province, for two years from the date hereof, pursuant to the provisions of sub-section (5) of section 41 of the "Land Act," as amended by section 6 of the "Land Act Amendment Act, 1901," to enable the Industrial Power Company of B. C., Limited, to select therefrom timber limits for wood pulp and paper manufacturing purposes, as provided by an agreement bearing date the sixth day of June, 1901, viz.:—

Area 1.—All the surveyed land on both sides of the river at the head of Wakeman Sound.

Area 2.—Commencing at the west boundary line of the Indian Reserve on Nimpkish river; thence along both sides of the river to the lake, with a width on each side of the river of 40 chains.

Area 3.—Extending from the head of Queen's Reach, Jervis Inlet, ten miles up the river, with a width of one mile on each side of each branch thereof.

Area 4.—Extending from the head of Robson Bite, Johnson Strait, three miles up the river, with a width on each side of half a mile.

Area 5.—Extending for five miles up Adam's river, Johnson Strait, from its mouth, with a width on each side of one mile.

Area 6.—Extending from the junction of Putchay or White river with Salmon river for a distance of ten miles up said White river, with a width on each side thereof of one mile.

Area 7.—Commencing at a point where the 51st parallel intersects with the Coast Line of British Columbia; thence east on said parallel to a point north of Embley Lagoon; thence south to said Lagoon; thence south and west following the channel between Kinnaird Island and Pandora Head; thence south and west along centre of Wells Passage to the Queen's Charlotte Sound; thence northwest to point of beginning.

Area 8.—Malcolm Island.

Area 9.—Gilford Island.

Area 10.—Commencing at the head of Pitt Lake; thence up the river at the head of said lake for a distance of five miles, having a width of half a mile on each side of said river.

W. S. GORE,
Deputy Commissioner of Lands & Works.
Lands and Works Department,
Victoria, B. C., 6th June, 1901.

RESERVE.

Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following areas are hereby reserved from pre-emption, sale, or other disposition, excepting under the provisions of the mining laws of the Province, for two years from the date hereof, pursuant to the provisions of sub-section (5) of section 41 of the "Land Act," as amended by section 6 of the "Land Act Amendment Act, 1901," to enable the Pacific Coast Power Company, Limited, to select therefrom timber limits for wood pulp and paper manufacturing purposes, as provided by an agreement bearing date the 13th day of June, 1901, viz.:—

Area 1.—All the surveyed land on both sides of Kingcome River, and the land surveyed between Kingcome Inlet and Bond Sound.

Area 2.—Commencing at the northeast corner of Lot 1; thence following up the river at the head of Thompson's Sound and its branches, a distance of ten miles, and having a width on each side thereof of one mile.

Area 3.—Commencing at the northern boundary of Lots 45, 55 and 56, on the Kiena-Klene River; thence north along the said river and its branches five miles, and having a width on each side of one-half mile, including all surveyed lands.

Area 4.—Commencing on Wakeman Sound at the southwest corner of Lot 61; thence west on the 51st parallel of latitude to a point north of Embley Lagoon; thence south to said lagoon; thence southwesterly following the passage between Kinnaird Island and Pandora Head to Milla Passage; thence to Queen Charlotte Sound; thence southeasterly along the shore line of Noel Channel, and easterly along the centre of Fife Sound to Village Point; thence northwesterly to the north of Trivett Island to the mouth of Kingcome Inlet; thence north along the west shore of Wakeman Sound to the point of commencement.

Area 5.—Consisting of Harbledown and Turner Islands.

W. S. GORE,
Deputy Commissioner of Lands & Works.
Lands and Works Department,
Victoria, B. C., 22nd June, 1901.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of Lots 942, 943 and 944 Victoria City, and in the Matter of the Quieting Titles Act.

Notice is hereby given that application is being made by J. H. Whittome for a declaration under the Quieting Titles Act that he is the legal and beneficial owner in fee simple in possession of the above lots free from encumbrances, save and subject as in Section 23 of said Act mentioned, and that the said Honorable Court being of opinion that he is entitled to such declaration the same will be issued to him if no adverse claim to his title to said land is filed pursuant to said Act before the 1st day of August, 1901.

Dated the 13th day of June, 1901.

CREASE & CREASE,
Solicitors for the Applicant.

NOTICE.

All mineral rights are reserved by the Esquimalt & Nanaimo Railway Company within that tract of land bounded on the south by the south boundary of Comox District, on the East by the Straits of Georgia, on the north by the 50th parallel, and on the west by the boundary of the E. & N. Railway Land Grant.

LEONARD H. SOLLY,
Land Commissioner.

NOTICE.

Notice is hereby given that I intend to apply to the Board of Licensing Commissioners at their next sitting as a Licensing Court for a transfer to Jno. Lawson and Chas. Lawson of my license for the sale of wines and liquors by retail upon the premises situate on the southeast corner of Yates and Blanchard streets, Victoria, B. C., known as the Retreat saloon.

Dated this day of May, 1901.

J. WRIGLESWORTH.

NOTICE.

Notice is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of land on the Skeena river, described as follows: Commencing at a point marked S. A. S. N. W. Cor., on the south bank of Kleanja or Gold creek at its junction with the Skeena, thence east 40 chains, thence south 40 chains, thence west to the Skeena river, and thence north to point of commencement.

Dated at Kit sa las, May 10th, 1901.

S. ARDEN SINGLEHURST,

"We Can Do No More"

SO SAID THREE DOCTORS IN CONSULTATION.

Yet the Patient Has Been Restored to Health and Strength Through the Agency of Dr. Williams' Pink Pills

Among the many many persons throughout Canada who owe good health—perhaps even life itself—to Dr. Williams' Pink Pills is Mrs. Alex. Fair, a well known and highly esteemed resident of West Williams township, Middlesex, Ont. For nearly two years Mrs. Fair was a great sufferer from troubles brought on by a severe attack of la grippe. A reporter who called was cordially received by both Mr. and Mrs. Fair and was given the following facts of the case: "In the spring of 1899 I was attacked by la grippe, for which I was treated by our family doctor, but instead of getting better I gradually grew worse until my whole body became racked with pains. I consulted one of the best doctors in Ontario and for nearly eighteen months followed his treatment but without any material benefit. I had a terrible cough which caused intense pains in my head and lungs, I became very weak; could not sleep, and for over a year I could only talk in a whisper, and sometimes my voice left me entirely. I came to regard my condition as hopeless, but my husband urged further treatment, and on his advice our family doctor, with two others, held a consultation, the result of which was that they pronounced my case incurable. Neighbors advised me to try Dr. Williams' Pink Pills, but after having already spent over $100 in doctor's bills I did not have much faith left in any medicine, but as a last resort I finally decided to give them a trial. I had not taken many boxes of the pills before I noticed an improvement in my condition, and this encouraged me to continue their use. After taking the pills for several months I was completely restored to health. The cough disappeared; I no longer suffered from the terrible pains I once endured; my voice became strong again, my appetite improved, and I was able to obtain restful sleep once more. While taking the pills I gained 37 pounds in weight. All this I owe to Dr. Williams' Pink Pills, and I feel that I cannot say enough in their favor, for I know that they have certainly saved my life."

In cases of this kind Dr. Williams' Pink Pills will give more certain and speedy results than any other medicines. They act directly on the blood, thus reaching the root of the trouble and driving every vestige of disease from the system. Sold by all dealers in medicine or sent post paid at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

THE CAPITAL OF HAYTI.

Port-au-Prince, the capital, is—by consent of all who have had opportunity of comparing it with other cities—the filthiest place in the world. The town was laid out by the French, and the streets are wide; it is only their great width that makes them passable, for the roadway before his dwelling is every housekeeper's rubbish-shoot, and slab-sided pigs and starving dogs perform all the sanitary offices for the town of Port-au-Prince, save in the rainy season, when a heavier storm than usual comes to flush the open drains. In consequence, the populace live in an atmosphere of combined cesspool and ashpit, which by all the laws of hygiene should produce chronic plague.

The free and independent negro leads the life that most nearly approaches his ideal. They have a proverb in the country that "only white men, black women, and asses work"; and there is truth in it. The black man lies around all day sleeping in the sun; his utmost effort is to play dice or watch a cock-fight; but sleep is his favorite occupation, and, he can do that better than anything else. In the country districts the old plantations have long since slipped back into the luxuriant overgrowth of the forest; in town any trading done is by the women and by foreigners. Undisturbed by the white man—to whom he is insolent—the town-bred negro is pacific enough; the only exertion demanded of him is to avoid the attentions of the police.—Chambers's Journal.

ITALY'S BLOODY BROTHERHOOD.

Light Thrown Upon the Mafia By a Chief of Police—Its Aims, Traditions and Rites.

The Mafia is one of the most curious and regrettable features of modern Sicilian life, and is a source of constant anxiety to the Italian government, and of absorbing interest to all foreigners visiting the island. Much has already been written on the subject, and many more or less fantastic theories as to its causes and character have been put forward. But a great deal of light has been shed on this social phenomenon by Signor A. Cutrera, for many years chief of police at Palermo, who has consequently had unrivaled opportunities of studying the inner workings of the organization.

The origin of the Mafia is by no means ancient. It dates no further back than the beginning of the nineteenth century. The causes to which it is due are probably the centuries of misgovernment to which Sicily has been subjected, and, above all, to the infamous police systems of the Bourbons. The Sicilian has acquired in consequence an inborn hatred of all government, and he regards any interference of the authorities in his private affairs with jealousy and distrust. His character is the exaggeration of individuality. All private differences should be settled privately, either in fair fight or by murder; no man is in his eyes so vile as he who calls in the help of the authorities for any purposes whatever. He is no "man of honor," but a "cascittuni" (spy). The highest virtue in Sicily is "onesta," which is possessed by those who never in any way help the authorities by giving information about crimes of which they know something, even if they themselves are the victims. This feeling is so strong that a man who has been badly wounded in fair fight or by treachery, if questioned by the police as to who committed the deed, will deny all knowledge of it. If he should recover he will revenge himself, but he will never turn informer. "If I live I shall kill you, if I die I forgive you," runs a Sicilian proverb. For "onesta" a man must go to prison, he must suffer every hardship rather than "peach." This feeling is the burden of many a Sicilian popular song and legend.

The Mafia is unlike any other known institution. It is not a secret society, political or otherwise; it has no fixed rules or statues; its objects are not necessarily criminal. It is a sort of vast mutual help association, to which an indefinite number of Sicilians belong. Its aim is to gain influence by every means, so as to promote the interests of its members. It assumes many different forms, and has no generally recognized leaders. It often has recourse to bloodshed and violence for purposes of terrorizing, of getting money, or of revenge. Its effect is to produce an appaling state of moral anarchy and lawlessness. It is distributed unequally over the island, and, as Signor Cutrera shows by a map, it does not by any means flourish least in the richest parts of the country. There are three main divisions of the Mafia: the Mafia of Palermo, the Mafia of the district around Palermo and the Mafia of the provinces. Palermo is the chief centre of the institution, and the residence of most of the "pezzi grossi," or leaders. The youth who aspires to Mafia honors begins as a "ricottaro," which means a man who lives on illicit earnings of unfortunate women. Among the "ricottari" are men of the upper bourgeoisie idle students and smart "men about time"—as well as members of the lower orders. They are arrogant, insolent and ready with the knife and the revolver. They act as the official claque at the theatres, and are commonly used as electioneering agents. The higher members of the Mafia are often men of civic and political importance. Their houses are like government offices. They are constantly busy with secretaries, agents, etc. Their halls are filled with all manner of people waiting for an audience to ask for some favor—letters of recommendation, legal advice, the removal of some obnoxious official, pressure on the judges in a lawsuit, and so on. The "capi-mafia" are not paid for their services, but by this means they acquire influence and power among all classes. At election time their services are invaluable, and the candidate who has the Mafia on his side is almost sure to be returned, whatever his political views are.

The Mafia in the "Conca d'Oro" is responsible for more deeds of violence than the other sections. This proves that the institution is neither attributable to poverty nor to the "latifondh" (large landed properties), as this region is the richest in Sicily, and that in which property is most subdivided into small holdings. The orange and lemon groves necessitate a large number of watchmen if fruit stealing and damage to the trees are to be prevented. But the only way to protect one's property effectively is to come to terms with the Mafia, accept its nominees as watchmen, and pay it a toll. Otherwise every night thousands of oranges and lemons will disappear, trees be mutilated, and the landlord, if he disregards these warnings, will probably be shot behind a garden wall.

In the provinces the Mafia has a somewhat similar character, but it devotes itself chiefly to vineyards and to cattle. Here again the landlord or his middleman has the choice of having his property protected by "mafiosi" or of being robbed and perhaps murdered. But in the country the brigands are responsible for most of the crimes which are committed. They are by no means identified with the Mafia, and act independently of it. But often brigands and "mafiosi" are on friendly terms, and help each other out of difficulties.

Although, as stated, the Mafia is not a regular uniform association, with its pale minor associations for criminal purposes have often been formed, generally for some particular object. The history of these societies is a record of treachery, murder, abduction and extortion. Sometimes whole families and clans have been wiped out. But one of the peculiarities of these crimes is that the victims are usually themselves members of the Mafia, or at least they have had dealings with it. Foreigners, among whom Italians from the mainland are included, may travel all over Sicily in perfect safety. In fact, should they happen to be robbed by common thieves, they will probably find an application to a "capo-mafia" more profitable than the help of the police.

The words "Mafia" and "mafiosi" have only acquired their present meaning within the last forty years. Originally "Mafiosi" meant pretty, neat, tidy, when applied to a girl; excellent and brave when said of a man. In 1860 a poular play was acted at Palermo called "I Mafiosi della Vicaria," i. e., the Bosses of the Vicaria (the great prison at Palermo), meaning those convicts who, by their courage and audacity, had won the fear and respect of their fellow-captives. Hence the word came to be applied to the members of these lawless gangs which constitute the Mafia. Signor Cutrera describes some of the curious ceremonies and customs of the "mafiosi." When a man wishes to enter one of these inner brotherhoods of the Mafia he is brought into a room where several chiefs are gathered. On a table there is a lighted candle and a picture of a saint. The neophyte's thumb is pricked, and the blood is made to drop on the image. He places his hand on the latter, and swears fealty to the brotherhood. The image is then burned, and he adds: "As this saint and these drops of blood are burned, so do I swear to shed all my blood for the brotherhood; and as these ashes and this blood can never return to their former state, so can I never quit the brotherhood." Possibly in this burning of the image there may have been originally some idea of desecrating it. The formula of recognition among members of these associations is usually as follows: "How my eyetooth aches?" "How long has it been aching?" "Since Candlemas" (the date of the initiation). "Who was there?" "A., B., C., etc., who received me as a brother."

These associations have given rise to many sensational trials, but the authorities have always found it very difficult to bring the guilt home to the real culprits, because of the feeling of "onesta," which makes evidence almost impossible to obtain, and because the whole machinery of the Mafia is set in motion to put pressure on judges, jury, counsel, police and witnesses in favor of the accused. Moreover, the Mafia obtained a considerable influence with the government by aiding it in the revolution of 1860. The only hope for its final suppression lies in better education, combined with the strictest penal laws.—From the London Daily News.

THE FALL OF CONSTANTINOPLE.

The Turks entered Constantinople one hour after midnight, May 29th, 1453. The Greeks fled in defeat, and spread consternation everywhere through the city. In a moment the streets were filled with a crowd half-maddened with fear and alarm. According to a widespread belief, the Turks would be crushed by thunder-bolts from heaven if they attempted to pass the column of the cross. An angel would descend with a sword and would hand this sword to an old man, saying: "Avenge God's people." The enemy would be then put to flight, and the Greeks would pursue them, strewing the road with their dead bodies as far as Monaderes on the Persian frontier. The affrighted multitude hastened to St. Sophia. In a short time more than one hundred thousand people filled the vast edifice. Soldiers, senators, priests, virgins who had left their monasteries, the women of the lower class, children, patrician families, all thronged into the body and galleries of the church, making the building resound with their piercing cries and lamentations. When there was no more room the doors were closed and fastened. Now a frightful state of helplessness and inaction succeeded to the weeping and crying of the people. Those who climbed up to the interior groundwork of the huge dome espied the approach of danger from the windows, while one hundred thousand pallid faces listened attentively for the least sound. The massed army of the invaders marched through the deserted streets of the city, and their objective point was, doubtless, St. Sophia. It was slavery, worse than death, that advanced. The exterminating angel did not halt the soldiers at the column of the cross. Divine wrath, so long staid, was falling with certainty on Byzantium. The crowds trembled and women fainted. In a trice the doors of St. Sophia were battered down by Ottoman arms. Dervishes, Janizaries, and timariots rushed on the crouching masses within. Drunken with blood, they paused for a moment as if dazed.—The Catholic World.

A Palatable Drink.

One of the good points about Abbey's Effervescent Salt is that it makes a cooling refreshing drink. Expert analysis and careful testing proves that it contains no ingredient of an injurious or unwholesome character, and may be taken freely as a beverage.

Taken before breakfast Abbey's Effervescent Salt clears the head and sharpens the appetite and puts your system in healthful condition for the day. It is a necessity, to all who would escape those distressing ills caused by derangements of the stomach and digestive organs.

ALL DRUGGISTS SELL IT. 25c and 60c a bottle.

Abbey's Effervescent Salt

Better and Cheaper Than Any Mineral Water.

Stands First and Highest.

Paine's Celery Compound

A Noted Physician's Prescription For The Banishment of Disease.

Physicians, druggists and those competent to judge, candidly acknowledge that Paine's Celery Compound has called forth the most reliable and the strongest testimonials ever published in the press of the country.

Each letter or testimonial tells of the extermination and banishment of rheumatism, neuralgia, kidney troubles, skin diseases, dyspepsia and headaches. The good work done by Paine's Celery Compound brings satisfaction, joy and peace because the cures are always permanent. Thousands of the best men and women in Canada to-day can give to weary and despondent sufferers the blessed assurance that "Paine's Celery Compound makes sick people well."

Paine's Celery Compound, the wonderful discovery of America's greatest physician, is now within reach of every ailing person, young and old, and should be used before sickness and disease are aggrevated by the coming hot weather.

If you entertain doubts regarding the curative and life-giving virtues of Paine's Celery Compound, speak to your druggist about it or consult your friends and neighbors who have been cured by it.

"What two things," exclaimed the orator, "are helping mankind to get up in the world?"

"The alarm clock and the step-ladder," answered the dense person in the rear of the hall.

GRIFFITHS' MENTHOL LINIMENT

FOR RHEUMATISM

If you are anxious to get rid of these Rheumatic pains now and for all time there is only one way to do it. The quickest way to reach the blood is through the skin. Nature put these million of pores in your body so that poisons could come out and soothing healing remedies could go in. The only thing that goes in where the roots of Rheumatism are located is Griffiths' Menthol Liniment. First open the pores by bathing the painful parts with warm water and good soap, wipe dry, then rub Griffiths' Liniment right in to where all the pain is. You will be surprised how quickly the pain, swelling and inflammation will all disappear. Rheumatism is inflammation of the joints and muscles, which causes them to swell and pain. Griffiths' Menthol Liniment isn't a cure all, but it does cure inflammation, that is why it will cure all bodily aches and pains. It is a clean, pleasant, vegetable, white oil Liniment that rubs right in. It's the only absolutely non-poisonous Liniment made. Sold everywhere 25 and 75 cents.

Mr. J. Woodward of Massey-Harris Co., Toronto, writes: "I was laid up for several days with inflammatory rheumatism, pains being almost unbearable. I got relief as soon as Griffiths' Menthol Liniment was applied, and one 75 cent bottle rubbed on at intervals during two days entirely cured me.

Victoria & Sidney RAILWAY.

Trains will run between Victoria and Sidney as follows:

DAILY:
Leave Victoria at.....7:00 a.m., 4:00 p.m.
Leave Sidney at.....8:15 a.m., 5:15 p.m.

SATURDAY:
Leave Victoria at.....7:00 a.m., 2:00 p.m.
Leave Sidney at.....8:15 a.m., 5:15 p.m.

SUNDAY:
Leave Victoria at.....9:00 a.m., 2:00 p.m.
Leave Sidney at.....10:15 a.m., 5:15 p.m.

Steamer Iroquois

Connecting with the Victoria & Sidney Railway, on and after May 20th, 1901, will sail (weather permitting) as follows:

Mondays.—Leave Sidney for Nanaimo at 8 a. m., calling at Fulford, Ganges, Mayne, Fernwood and Gabriola.

Tuesdays.—Leave Nanaimo for Sidney at 7 a. m., calling at Gabriola, Kuper, Chemainus, Vesuvius, Maple Bay, Burgoyne, Genoa, Cowichan and Mill Bay.

Wednesdays.—Leave Sidney at 8 a. m., calling at Fulford, Beaver Point, Ganges, Galiano, Mayne, Pender and Saturna.

Thursdays.—Leave Sidney for Nanaimo at 8 a. m., calling at Mill Bay, Cowichan, Genoa, Burgoyne, Maple Bay, Vesuvius, Chemainus, Kuper and Gabriola.

Fridays.—Leave Nanaimo for Sidney at 7 a. m., calling at Gabriola, Fernwood, Ganges, Mayne and Fulford.

Saturdays.—Leave Sidney at 8 a. m., calling at Saturna, Pender, Mayne, Galiano, Ganges, Beaver Point and Fulford.

Close connection made at Sidney with evening train for Victoria on Tuesday, Wednesday, Friday and Saturday.

THE NORTH-WESTERN'S Fast Mail

THE NORTH-WESTERN LINE

Have added two more trains (the Fast Mail) to their St. Paul-Chicago service, making eight trains daily

BETWEEN

Minneapolis, St. Paul and Chicago.

This assures passengers from the West making connections.

The 20th Century train, "the finest train in the world," leaves St. Paul every day in the year at 8:10 p. m.

F. W. PARKER, General Agent, 151 Yesler Way, Seattle, Wash.

"The Milwaukee"

A familiar name for the Chicago, Milwaukee & St. Paul Railway, known all over the Union as the Great Railway running the "Pioneer Limited" trains every day and night between St. Paul and Chicago, and Omaha and Chicago. "The only perfect trains in the world." Understand: Connections are made with All Transcontinental Lines, assuring to passengers the best service known. Luxurious coaches, electric lights, steam heat, of a verity equalled by no other line.

See that your ticket reads via "The Milwaukee" when going to any point in the United States or Canada. All ticket agents sell them.
